Wrotham			

Proposal:	Redevelopment to provide integrated highway depot comprising offices, garaging, salt barn and storage areas with associated car parking and landscaping
Location:	The Poplars London Road Wrotham Sevenoaks Kent TN15 7RR
Applicant:	Kent Highway Services

---

**1. Description:**

- 1.1 Members will recall that earlier in September this year, a report and supplementary report was considered regarding a Regulation 3 consultation on a County Council proposal, on behalf of the Kent Highway Services, to build a new highways depot to serve West Kent.
- 1.2 Since that resolution was made, KCC Cabinet has reviewed the strategy of the number and location of the “super depots” – it is now proposed to have 2 such depots, one serving West and the other East Kent whereas the original strategy was to have 3 “superdepots” serving West, Mid and East Kent.
- 1.3 A full report on whether this change in strategy will affect the previously resolved position of TMBC on the “superdepot” proposal for Wrotham will follow in due course.
