**Investment Property Revaluation to Capital Adjustment Account** - Under the IFRS Code all gains and losses on investment property are charged to the Comprehensive Income and Expenditure Account and Reversed to the Capital Adjustment Account. Therefore all current balances held for Investment Properties within the Revaluation Reserve need to be moved to the Capital Adjustment Account.

**Embedded Leases** - Under the IFRS code we are required to recognise the value of assets held under embedded leases within the balance sheet, this net book value will be offset by a deferred liability on the balance sheet.

**Capital Contributions Deferred** - The contributions held against purchased assets and are written down in line with the asset life, the new code recognises these contributions in the year that they arise and therefore require the held on this account to be transferred to the Capital Adjustment Account.

**Cash Equivalents** - These are internally managed investments which have a maturity of less than 3 months of the balance sheet date.

**Annual Leave** - The accrued annual leave is shown within the creditors balance and is offset by a employee adjustment account on the lower half of the balance sheet.
