

TONBRIDGE & MALLING BOROUGH COUNCIL

JOINT TRANSPORTATION BOARD

30 November 2009

Report of the Head of Technical Services

Part 1- Public

Matters For Information

1 STREET LIGHTING – OPERATIONAL ARRANGEMENTS

1.1 Context

1.1.1 Last December, a representative from EDF presented a position statement on operational arrangements for street lighting energy supplies between Kent Highway Services and EDF.

1.1.2 Later, at the March meeting, I provided a further update and undertook to return to a future meeting of the Board to describe progress as new arrangements were developed. With that in mind, I and the EDF representative will be attending the November meeting of the Board. It will be an opportunity for Board Member to assess recent changes and to consider the work of the street lighting service in relation to their own wards and divisions.

1.2 Legal Implications

1.2.1 None applicable

1.3 Financial and Value for Money Considerations

1.3.1 Nil

1.4 Risk Assessment

1.4.1 Nil
