## **2009-10**

Contents

1. Introduction
2. KHS Winter Service Policy and Plan 2009-10
3. Tonbridge and Malling Local Winter Service Plan 2009-10
4. Winter Service Operational Period 2009-10
5. The Team
6. Access to KHSnet
7. Early Warnings of Severe or Extreme Weather/Flash Warnings
8. Kent Road Weather Forecast and Salting Instructions
9. Additional Salting Action to be Issued Locally
10. Winter Service Duty Officers
11. Local Duty Officers
12. Senior Duty Officers
13. Ringway Duty Officers
14. Duty Officer Rota (outside of office hours)
15. Primary Precautionary Salting Routes
16. Secondary Precautionary Salting Routes
17. 4x4 Wheel Drive Vehicles
18. Ice and Snow Emergencies
19. Local Agreement – Tonbridge and Malling Borough Council (TMBC)
20. Christmas/New Year Staff Availability
21. Local Emergency Centres
22. Farmers Snow Ploughs
23. Salt Bins

List of Appendices

- Appendix A List of Footways for Hand Salting
- Appendix B List of School Approaches for Hand Salting
- Appendix C List of Hospitals, Ambulance and Fire Stations and Crematoriums
- Appendix D List of Doctor's Surgeries
- Appendix E List of Care Homes for the Elderly
- Appendix F Salt Bin Location Schedule By Parish
- Appendix G Salt Bin Assessment Form
- Appendix H Steep Footbridges for Hand Salting
- Appendix I List of Farmers Snow Ploughs

## Introduction

Kent Highway Services (KHS) takes its winter service responsibilities very seriously and is proactive as well as being reactive to winter weather conditions. Winter service costs KCC about £2m every winter and such an important service needs careful management to achieve safety for the travelling public but to also be efficient and not wasteful. Community Operations teams will need to act consistently to ensure that standards and decisions made are the same across the whole county. The KHS team for each district is to produce its own local winter service plan based on a common template.

## KHS Winter Service Policy and Plan 2009-10

Every autumn the Winter Service Policy and Plan are revised, updated and presented to Members for formal approval. This document is a definitive guide to all winter service activities and this can be found on KHSnet. Every member of the Tonbridge and Malling team (the team) will read and be familiar with the content this document before the winter operational period begins. A paper copy will be held in the main office by the Team Leader.

## Tonbridge and Malling Local Winter Service Plan 2009-10

The KHS team for each district is to produce its own Local Winter Service Plan (LWSP) based on a common template. The LWSP for Tonbridge and Malling is a working document for every member of the team to use. It will evolve and be revised as necessary throughout the year. The document is available on KHSnet and every member of the team will read and be familiar with its content. Staff shall make sure they have access to this document whilst at local depots and at home. A paper copy will be held in the main office by the Team Leader. This document complements the Winter Service Policy and Plan 2009-10 and, unless necessary for clarity, there will be no duplication between these two documents.

## Winter Service Operational Period 2009-10

The winter service operational period 2009-10 will run from 19 October 2009 to 26 April 2010. Weather Forecasts dedicated to Kent's roads will be received every day during this period from Meteogroup, a private forecasting agency, and Ringway will be on standby to treat roads or clear snow as required.

## The Team (including contact Information)

| <b>Name</b>    | <b>Role</b>                      | <b>Work Telephone</b> | <b>Home Number</b> |

| Paul Ridd      | Highway Inspector | Office:<br>Mobile: |  |

### Access to KHSnet

KHSnet is the local intranet service for Kent Highways staff and is a central database of information relevant to its services. Winter service information is available here and can be accessed by typing [www.khsnet.org.uk](http://www.khsnet.org.uk). Staff will need login and password information to access KHSnet. When logged on go to 'Service Groups' then 'Community Operations' then the 'Winter Service' area of the site. Information available here is as follows: -

1. Winter Service Policy and Plan
2. Preparing for Winter
3. PDF versions of primary precautionary salting routes.
4. PDF versions of secondary precautionary salting routes
5. Changes to primary salting routes
6. Changes to secondary salting routes
7. Winter Service Duty Officer Rota
8. Farmers Snow Plough Rates
9. District Local Winter Service plans

### Early Warnings of Severe or Extreme Weather/ Flash Warnings

Severe and Flash weather warnings are issued by the Meteorological Office throughout the year to various organisation including KCC. These warn of heavy rain, high winds, icy roads and snow. Severe weather warnings are issued when there is a 60%, or greater confidence, that severe weather is expected in the next few days. Flash Warnings are issued when there is a 80%, or greater confidence, that severe weather is expected in the next few hours. Whenever these warnings are received they will be disseminated to the team.

### Kent Road Weather Forecast and Salting Instructions

During the operational winter service period the Kent Road Weather Forecast will be issued every day (between 1300 and 1400). This will be sent to Comms Ops 2 and Team leaders by email. Comms Ops 2 will disseminate the forecast to all remaining members of the team. The forecast will give a summary of expected weather conditions for the following 24hrs and for the next five days, as well as any salting action instructed by the Winter Service Duty Officer. Team members will make sure they are aware of the content including weather

forecast information and action for the next 24hrs. The Kent Road Weather Forecast will also be available on a voice recording by phoning 01622 221077, as well as by email.

#### Additional Salting Action to be Issued Locally

If additional salting action is required locally, beyond that instructed by the Winter Service Officer, the Team Leader or Engineer will issue these to Ringway directly.

#### Winter Service Duty Officers

Routine salting decisions for primary and secondary precautionary salting activities is managed by a dedicated team of senior officers acting as Duty Winter Service Officers. These are on duty on a rota basis for a week at a time during the operational winter service period. The duty officers are responsible for producing the Kent Road Weather Forecast every day when on duty and for issuing weather updates as required.

#### Local Duty Officers

Local duty officers are on duty throughout the year, outside of office hours to deal with emergencies as they arise. These officers will also be on call for winter service issues during the operational period. Duty Officers are members of staff from the general West Kent Area but will act for the Tonbridge and Malling area. Local duty officers have a dedicated mobile phone and pager. They must be familiar with the relevant winter service documents, the daily Kent Road Weather Forecasts, and be able to make decisions relating to winter service activities. Local Duty Officers will liaise with the Winter Service Duty Officer as necessary.

#### Senior Duty Officers

Senior Duty Officers are on duty outside of office hours and are available to take calls for general emergencies should the local duty officer not be available or in the event of more major emergencies.

#### Ringway Duty Officers

Ringway duty officers are on duty throughout the year, outside of office hours to deal with emergencies as they arise. Additional Ringway Duty Officers will also be on call for winter service issues during the operational period.

#### Duty Officer Rota (outside of office hours)

A rota of contact information and names of Local Duty Officers, Senior Duty Officers, Duty Winter Service Officers and Ringway duty officers is circulated on a weekly basis by email.

### Primary Precautionary Salting Routes

Copies of all primary precautionary salting routes for the county are available on KHSnet. These routes cross district boundaries. Primary routes that are relevant to the Tonbridge and Malling area are: -

|        |        |        |          |
|--------|--------|--------|----------|
| COLD 1 | SWAN 4 | HAYS 5 | Medway 1 |
| COLD 2 | SWAN 7 | HAYS 9 |          |
| COLD 3 |        |        |          |
| COLD 6 |        |        |          |
| COLD 7 |        |        |          |

### Secondary Precautionary Salting Routes

Copies of all secondary precautionary salting routes for the county are available on KHSnet. These routes cross district boundaries. Secondary routes that are relevant to the Tonbridge and Malling area are: -

|        |        |
|--------|--------|
| COLD A | HAYS E |
| COLD B | HAYS H |
| COLD C | HAYS I |

### 4x4 Wheel Drive Vehicles

A 4x4 wheel drive will be provided at Haysden and Aylesford during the months of December, January and February for use by KHS operational staff. Whilst the vehicle is mainly for winter service use, during periods of ice and snow; it may be put to other uses during periods of quiet weather. The vehicle will be provided, managed and serviced by Ringway and the local Ringway depot supervisor will be responsible for it. The vehicle will be returned to its depot at night unless being used by a local out of hours duty officer.

### Ice and Snow Emergencies

If there is widespread snowfall or roads become icy then a local emergency may be called by Andy Moreton, Peter Lott or Jez Massy. This could be called even though a general ice or snow emergency has not been called by the Winter Service Duty Officer or Community Delivery Manager(s). If a local emergency is called routine operational work will cease and all efforts will be spent on dealing with the situation until such time as the emergency is called off. Staff will report to Haysden or Aylesford Depots and work alongside Ringway staff. Salting of primary and secondary precautionary salting routes will still be called by the Duty Winter Service Officer but if these resources become available then they may be used for local action. In addition hand crews will be used for dealing with roads and footways not on primary or secondary salting routes (A list of footways for hand salting is given in Appendix A.) The crews will be directed to areas as the situation demands but staff will target resources to areas of higher risk such as approaches to schools(term time) hospitals,

ambulance and fire stations, crematoriums (Appendix C), doctor's surgeries (Appendix D) and care homes (Appendix E).

### Local Agreement – Tonbridge and Malling Borough Council (TMBC)

During periods of snow or icy weather staff that are employed directly or indirectly by TMBC may be available to help with hand salting. The contact at TMBC is Dennis Gardiner or Mike O'Brien who can be contacted on [redacted]. This staff resource is likely to be refused and street cleansing operatives or parks and garden personnel who probably will not be able to carry out their normal work in times of bad winter weather.

### Christmas/New Year Staff Availability

 **On Leave**

Available – **Yes/No**

|       | Andy Moreton | Peter Lott | Jez Massy | Louise Codmar | Pavinder Jutte | Carole Hearsey | Nigel Fermor |  |  |

| 28/12 |              |            |           |               |                |                |              |  |  |
| 29/12 |              |            |           |               |                |                |              |  |  |
| 30/12 |              |            |           |               |                |                |              |  |  |
| 31/12 |              |            |           |               |                |                |              |  |  |
| 01/01 |              |            |           |               |                |                |              |  |  |
| 02/1  |              |            |           |               |                |                |              |  |  |
| 03/1  |              |            |           |               |                |                |              |  |  |

### Local Emergency Centres – Depots Access Information

During periods of severe winter weather local control centres will be set up at I Block, Aylesford and Haysden, Tonbridge. Access to I Block out of office hours will be by means of contacting the security guard who will be on duty and located in the hut at the entrance to the County Transport Workshop area of the Aylesford site. You must show your ID card and he will then open up the offices for you. This will only occur if a number of staff are being called in to help deal with an emergency situation. It is likely that Ringway staff will also be in attendance and access to the offices may be gained from them. This will be the case at Haysden depot. Lone working in either of these offices is not allowed outside of office hours.

### Farmers Snow Ploughs

Farmers local to the area are under agreement (not contract) to plough snow on the more rural routes when required. Staff will be familiar with the farmers that have agreements and the roads they cover. Agreements are renewed every year and copies are available in I block and Haysden offices. Each agreement details the roads that that particular farmer is responsible for. The farmer uses his own tractor with a KCC plough, which is serviced every year and maintained as required by KCC. When snow reaches a depth of 50mm on roads on a farmers list he will commence ploughing. Before this occurs the farmer should phone the Contact Centre to tell them he is going out to plough. This information will be relayed to the relevant area office. But if a farmer is required and has not called in staff will contact him directly. Farmers are paid by the hour when actually ploughing. The rates are agreed countywide in early November.

### Salt Bins

Salt bins will be checked and refilled in early November; a single order will be given to Ringway for this. If we have bad winter weather and salt bins need replenishing a further order will be issued. A list of salt bin locations by parish is given in Appendix F

The policy for providing new salt bins has changed for this winter season. Parish Councils no longer have to pay for new salt bins. Instead all requests for new salt bins will be assessed to determine whether certain criteria is met. Any member of operational staff can do this assessment. The form for this purpose is given in Appendix G. If the score reaches or exceeds 120 points then a new salt bin should be ordered directly through the WAMS system, but inform the Team Leader of this so that it can be added to the list for future maintenance and filling. If following the assessment the score does not reach 120 points then inform the enquirer directly that we will not be providing a new bin at this particular location.

| <b>TOTAL</b>                    |  |                            |                |              |

\* N.B. Any industrial or shop premises for which this is the only access is to be automatically promoted to the next higher category within characteristic (V).

Any site for which the summation of the weighing factors equals or exceeds 120 would warrant the siting of a salt bin.
