adventure trail

An example of how the Adventure Trail can be installed - it will absorb many children and will provide fun for all the family - even mums and dads can have a go - so give it a try - see if you can get round without making contact with the ground!

mini suspension bridge

Burma bridge

Burma bridge

twin balance beam

wobble board

log walk

crisscrossed tread helps prevent slipping

balance beam, balance walk, chain walk, balance beam

Webble Board

59

adventure trail

Children look for risky challenges - the Adventure Trail is designed to encourage them to think in terms of risk-taking at a low level, helping them to overcome their fear of failure.

It needs bags of determination to master some of the units!

Longer activities - provide a greater challenge.

Unique spacers eliminates the hazard of finger and toggle traps

BS EN 1176

ladder walk

balance walk

clatter bridge

tyre traverse/ladder walk

swinging steps/tram tracks

swinging steps
