CAPITAL PLAN LIST C - FAST TRACK EVALUATION

Proje	ct	Leisure Services – 1	Tonbridge Outdoor Pool
1.	Spe	cification:	
	(i)	Purpose of the scheme	To address ongoing problems with damage/leaks to the pipe work surrounding the outdoor pool, caused by settlement of the backfill around the pipes and ground movement.
			Tonbridge Swimming Pool attracts over a third of a million users annually and the outdoor pool is a major attraction for residents and visitors in the summer months (April-September inclusive). Income from casual swimming alone exceeds £400,000 per annum and the highest profile is during the summer season, particularly in the school holidays and on sunny days. It is viewed as essential to protect these levels of income to the Council.
	(ii)	Relevance to National / Council's Strategic Objectives	(a) National: Adult participation in sport (National Priority) Promoting healthier communities. (b) Council: Encouraging healthy living Meeting the needs of children and young people A key issue within the Council's Leisure & Arts Strategy 2008/13 is the need for ongoing capital investment in the Council's leisure facilities to retain and increase usage levels and to meet customer expectations.
	(iii)	Targets for judging success	 (a) Maintain use of the outdoor pool for public use. (b) Retained income. (c) No further problems with leaks to outdoor pool pipe work. (d) Project delivered on time and within budget.
2.	The problem of the state of the	elems being experienced sidered by Council Office se repair to the pool incluration the summer season a pervices zone. This wallows installed at about 1.5r	

CAPITAL PLAN LIST C - FAST TRACK EVALUATION

	Consultation:							
	The scheme has been brought forward in consultation with a Structural Engineer, Quantity Surveyor and the Council's Building and Facilities Manager. Due to the need to progress the scheme immediately consultation has also been undertaken with the Leader, Cabinet Members for Leisure, Youth & Arts and Finance, and the Chairman of Scrutiny Committee as outlined in the main body of the report.							
4.	Capital Cost:							
_	The capital cost of the scheme is expected to be £146,000. This includes the sum of £11,000 to effect the first phase repair.							
5.	Profiling of Expenditure: [It is important that the profiling of a capital budget represents a best estimate of when capital expenditure							
	to be incurred. Do not be unrealistic in assessing the progress of the project from preliminary works to final payment. Take account of							
		considering the timing of this	<i>, ,</i> .
