

## Kent Joint Municipal Waste Management Strategy (KJMWMS) 2012/13 to 2020/21 Policies

<b>Objectives</b>	
<b>1</b>	Deliver the best possible outcomes on materials handled by the KWP from household and other appropriate sources.
<b>2</b>	Deliver the best possible value for money to Kent taxpayers taking account of whole-service costs paid through Council Tax.
<b>3</b>	Secure the best possible outcomes through effective partnership working among the 13 Kent councils, through the SE7 Project, with government, and across the supply chain.

<b>Policies</b>	
<b>1. Materials Security and Resource Efficiency</b>	
<b>1a</b>	By 2015/16 the KWP will reduce household waste arisings by at least 5% (based on 2010/11 levels); recycle/compost at least 45%; and send no more than 10% to landfill.
<b>1b</b>	By 2020/21 the KWP will reduce household waste arisings by at least 10% (based on 2010/11 levels); recycle/compost at least 50%; and send no more than 5% to landfill. Our ambition is to get as close to zero untreated waste to landfill as possible.
<b>1c</b>	The KWP will work with the government, the SE7 Project, and others to develop and deliver a waste reduction plan including practical measures to help achieve policies 1a and 1b. <i>[Added context: In practice this includes national programmes such as the Love Food Hate Waste campaign, 'take back' schemes for bulky items, and re-use in the home.]</i>
<b>1d</b>	The KWP will take account of the need for the right quality of recyclates for the right end uses as included with the revised Waste Framework Directive and transposition into UK legislation. <i>[Added context: In practice this includes co-ordinated activities with the supply chain and Kent residents to ensure quality; and flows of Kent materials to be auditable through to end destinations.]</i>
<b>1e</b>	The KWP will continue its high performance in minimising the use of landfill. The KWP will assist householders to maximise the amounts they recycle and re-use, and avoid putting the following items into residual waste bins: paper, cardboard, glass, metals, wood, plastics, textiles, waste electricals, batteries, and food.
<b>2. Value for Money for Kent Taxpayers</b>	
<b>2a</b>	The KWP will continue its existing efforts to deliver value for money to Kent

	residents by means of: optimising services financially and environmentally; joint service delivery opportunities between councils; cross-boundary working; economy of scale through procurement exercises; and securing funding from external bodies.
<b>2b</b>	The KWP aspires to put in place separate collections of discarded food for composting on a weekly basis in all districts by 2020; and in at least 8 of the 12 districts by 2015/16 (separate weekly collections) and 10 of the 12 districts (including existing fortnightly collections).
<b>2c</b>	Communications and operational activities will be co-ordinated so that Kent taxpayers gain the best possible value from the investment of their Council Tax payments into local services. <i>[Added context: In practice this includes balancing financial, environmental, and social outcomes wherever possible.]</i>
<b>2d</b>	All eligible Kent councils will sign up to the new generation of household and business 'Recycling & Waste Collection Commitments' and seek to uphold these continually.

### 3. Supporting Kent's Interests

<b>3a</b>	The KWP will seek innovations to ensure future services provide the Kent taxpayer with the best value for money. These include exploring the feasibility of collections from commercial premises (particularly SMEs); cross-county working on HWRC's, materials and infrastructure (such as the SE7 Project); and cross-sector working with retailers, brands, reproducers and others.
<b>3b</b>	The KWP will continue its record of influencing the government's policies and laws to protect Kent taxpayers' interests whether by means of responses to consultations; development of Responsibility Deals and appropriate legislation; and securing support from wider audiences on issues of importance to us.
<b>3c</b>	The KWP will promote good practice in relation to health and safety; streetscene effectiveness (including enforcement and behavioural change); and value for money (including unit costs and asset effectiveness).
<b>3d</b>	The KWP will maintain a publicly-available Operating Framework that defines its scope, remit and procedures; and review its continued operation at least in 2015 and 2019.
<b>3e</b>	The KWP will continue to produce an Annual Report that outlines the work of the previous financial year in delivering the Kent Joint Municipal Waste Management Strategy and any other activities within its remit.
<b>3f</b>	The Kent Joint Municipal Waste Management Strategy will be refreshed in 2016/17 and 2021/22; or at any other times as agreed by the KWP; or in accordance with any changes in legislation relating to such strategies.
