- **Phase One** Launches this week (Turn off trial of 3000 lights)
- **Phase 2 - part-night lighting**
On selected roads, we propose that some lights would be turned off for a number of hours over night, possibly between midnight and 5:30am.
- Savings could reach £1m by turning lights off when they don't need to be lit, and save 5,000 tonnes of carbon emissions
- Consultation open now (closes 23rd Aug)
