12th August 2008

Dear Mr Gahan

FINANCIAL ARRANGEMENTS WITH PARISH COUNCILS 2008/2009

Thank you for your communication of 5th August 2008 regarding changes to the method of applying annual increases under the scheme of financial arrangements with Parish Councils.

It seems that the Government's cost cutting imposed on Borough Councils, is in turn being passed on to Parishes, who can ill afford the cuts.

Compared to last year this Council's total allocation will be down by £152.32 but the annual increase in the Consumer Price Index for August 2008 is likely to be higher than last year so parishes will get a "double whammy".

The reason for the cutback is given as "...reduction in Central Government support and the imposition of Council Tax Capping". This Council would like to know if the Borough Council has been capped and how it has calculated the "funding gap of £500,000"?

This Council would also like to ask why the Borough Council is suggesting that the Scheme of Financial Arrangements with Parish Councils be included in the cut back? This will put an unfair burden on Parish Councils who are already under great pressure to reduce their own expenses. The Parish Council would like to have details of the other "budget areas" being considered for cutbacks?

This Council is not opposed to the strengthening of the Terms and Conditions for Special Works Projects, as this will ensure the money is well spend and in accordance with priorities.

Yours sincerely

Sue Kavanagh

Dear Mr Gahan,

FINANCIAL ARRANGEMENTS WITH PARISH COUNCILS 2009/10

In reply to your letter dated 5th August 2008 which was considered at our Parish Council meeting on 11th August, we share your concern that the government's allocation of financial assistance to Kent and its district councils is woefully inadequate to meet the increased costs of providing the current level of service to people in our area. Whereas we accept that you may not be in a position to fully fund the needs of parishes in the coming financial year, we consider the proposed 0.4% penalises us unfairly for the following reasons:

1. The Consumer Price Index is likely to exceed 4% and the Retail Price Index is likely to exceed 5%.
2. Gas and electricity costs have increased by over 20%.
3. Providers of supplies and services such as our playing fields maintenance are likely to be seeking an increase close to inflation.
4. Salary and wages increases are likely to be around 2%.

We assume TMBC budgets will not be using 0.4% as the likely increase in rates next year and the question of double taxation for people living in parishes no doubt will be raised by aggrieved residents living in our area if we were to fully fund the increase over and above 0.4%. For that reason we suggest that whatever percentage TMBC decides to increase the rates by it includes half the increase to uplift parishes' annual allocation as detailed in your letter, e.g. TMBC rate rise 4%; parish increase support 2%.

We are also concerned that not all parishes meet in August and we suggest that parishes are given more time to respond and in any case we would ask that the item is placed on the Parish Partnership Agenda on 11th September.

Yours sincerely,

Marylin Apps
Clerk
Hadlow Parish Council
