7 November 2016

Dear Councillor

COMMUNITIES AND HOUSING ADVISORY BOARD - MONDAY, 14TH NOVEMBER, 2016

I enclose, for consideration at the Monday, 14th November, 2016 meeting of the Communities and Housing Advisory Board, the following replacement reports in respect of agenda item 15. Please substitute these for the version which appears on the agenda.

Agenda No Item

15. **Housing Services Update (Pages 3 - 20)**

Replacement report and annexes

Yours sincerely

J E BEILBY
Chief Executive

TONBRIDGE & MALLING BOROUGH COUNCIL
COMMUNITIES and HOUSING ADVISORY BOARD

14 November 2016

Report of the Director of Planning, Housing and Environmental Health

Part 1- Public

Matters for Information

1 HOUSING SERVICES UPDATE

Summary

This report updates Members on key issues across the Housing Service and performance over the period April to September 2016.

1.1 Housing Policy Update

- 1.1.1 At the last Board meeting, Members raised concerns in respect of national social policy changes that are impacting on our ability to meet housing need of those households who cannot, for a variety of reasons, access homeownership and are being impacted by the widening affordability gap. A letter set out in **[Annex 1]** capturing these challenges and highlighting Members concerns has been sent by the Leader of the Council and Cabinet Member for Housing, to our local MPs.
- 1.1.2 Following the change of Prime Minister and Cabinet in July, Sajid Javid has been appointed as Secretary of State for Communities and Local Government and Gavin Barwell as the new Housing and Planning Minister. At the Conservative party conference in September the Secretary of State announced a £3bn Housebuilding Fund. The purpose of this is to help small and medium enterprises to build 25,000 new homes by 2020. The fund will be used to encourage builders to use more modern building techniques which can deliver homes twice as quickly as conventional build methods, with a strong focus on off-site construction.
- 1.1.3 There was a further announcement that a Housing White Paper will be published later this year with further significant measures to assist the government's ambition of a million new homes by 2020. Future reports to this Board will keep Members updated as the detail emerges.

1.2 Welfare Changes

- 1.2.1 Changes to the Benefit cap announced in 2015 will come into force from 7 November 2016. This is the total amount of benefits a household can receive, including housing benefit. For our borough this will initially impact circa 200 house households, 100 of which are Circle Housing Russet (CHR) tenants. The Housing Service is working closely with CHR, Housing Benefit team and Department of

Works of Pension to work with these households to encourage them to become economically active. Early indications are that those households affected will see a reduction in their housing benefit ranging from £2-£200 a week. We will be closely monitoring the impact of the cap on our residents' ability to meet housing costs.

1.3 Affordable Housing

1.3.1 We continue to work with our partners to plan and ensure timely delivery of new housing. Set out at **[Annex 2]** is a monitoring spreadsheet showing the completed schemes from the previous period, the year to date, and the development programme up to 2018.

1.3.2 Members should be aware that details on some schemes may alter where planning permission has yet to be secured and some may not proceed. The number of units to be provided is therefore an indicative figure for strategic planning purposes, pending confirmation of final scheme details. As new schemes come forward these will be also be added to the schedule.

1.4 Private Sector Housing

1.4.1 Extending The Scope of Mandatory Licensing for Houses in Multiple Occupation

Government published their formal response to the technical discussion paper 'Extending mandatory licensing of Houses in Multiple Occupation in England' on the 18 October 2016. As a result Government has launched a further consultation on the detail of the proposals, which covers the following areas:

- Extending the scope of mandatory house in multiple occupation (HMO) licensing
- National minimum room sizes in licensed HMOs
- Fit and proper test
- Refuse disposal facilities
- Purpose built student housing.

1.4.2 Government is looking to extend the existing mandatory HMO licensing to include all large HMOs regardless of the number of storeys, where currently it is only for HMOs that are three or more storeys with five or more persons in two or more households. They are also looking to include flats above and below high risk business premises.

1.4.3 Government is looking to insert a new mandatory condition into HMO licences requiring rooms used for sleeping for one or two persons to meet certain minimum room sizes in line with the Housing Act 1985 overcrowding standard.

- 1.4.4 It is proposed the fit and proper person test for an applicant applying for a licence be updated to require a standard disclosure certificate from the Disclosure and Barring Service (DBS) rather than requiring the applicant to answer a series of questions on offences on the application form as currently.
- 1.4.5 Government proposes a mandatory licence condition requiring adequate receptacles for the storage and disposal of normal household waste based on the number of households or persons permitted to occupy the HMO under the licence.
- 1.4.6 For private providers of purpose built student housing where the accommodation meets approved codes of practice it is proposed that they be eligible for a discount on the licence fee.
- 1.4.7 The private sector housing team will be leading on the consultation response for Tonbridge & Malling in discussion with colleagues across Kent. The closing date for responses is the 13 December 2016.

1.5 Activity in the first six months of 2016/17

- 1.5.1 The Private Sector Housing (PSH) team responded to a total of 253 service requests, the breakdown of the service requests are shown below.

Service request activity	Number of requests
Housing conditions	59
Caravan site	3
Empty home visits	165
Immigration related visits	0
Rent deposit visits	17
Temporary accommodation visits	9
Arrange Public Health funeral	0
Total	253

- 1.5.2 The majority of the 59 housing condition related service requests were dealt with informally but where there are significant hazards as determined by the Housing Health and Safety Rating System (HHSRS) assessment and the landlord is not undertaking the appropriate remedial works then formal enforcement action is taken. Under the Housing Act 2004 one interim Empty Dwelling Management Order has been made on a long term empty property in West Malling. One new HMO licence has been approved and one application for the transfer of a caravan site licence.
- 1.5.3 As part of the work of the Corporate Empty Property Group the PSH team are working with Council Tax to visit those properties across the borough that are identified as empty and to determine if they still remain empty or are now

occupied. These visits help maintain accurate Council Tax records and contribute to the Council receiving the appropriate New Homes Bonus funding.

1.6 Housing Assistance

1.6.1 To date 3 Housing Assistance grants have been completed. The works carried out included:

- Bringing 2 empty homes back into use;
- Helping to make the home of 1 domestic abuse victim more secure so they feel safer.

1.6.2 We have continued to promote to local health colleagues our housing assistance policy to better tackle the housing and health links. A recent success that is going through the grant process at the moment is a link with the local Falls Prevention classes. As a result of liaison with the provider of the classes and a talk to the residents who attend we visited the home of a vulnerable resident in Tonbridge where we identified major falls hazards to the staircase and the garden path/patio. Using our Housing Assistance policy we are able to rectify these issues for the resident so that not only is she building her strength and stability at the Falls Prevention classes but when she goes home her chances of falling again are greatly reduced.

1.6.3 In most Housing Assistance cases the Council places a charge on the property and recovers this charge if the property is sold. So far this year we have recovered £22,000 of repayable grants.

1.7 Winter Warmth Scheme

1.7.1 As well as access to our own Housing Assistance funding, Kent County Council continued to allocate a small amount of funding to districts to help residents who are vulnerable to a winter death because they had a health condition and poor heating provision. We have assisted 3 residents so far to improve their heating so they are no longer as susceptible to a winter death from excess cold.

1.8 West Kent Landlord Forum

1.8.1 We continue to work in partnership to deliver Landlord Fairs/Forums with colleagues at Sevenoaks and Tunbridge Wells and the National Landlords Association. The overall usefulness of these forums is to drive up quality standards in the private sector and promote opportunities for joint working to widen the range of options that the Borough Council has available to address housing need.

1.8.2 The most recent Landlord Fair was held at Sevenoaks in October 2016 where landlords were updated on tax changes, a look at the future for the private rented sector, links between housing and health, current and upcoming legislation and

other relevant matters. There were approximately 45 attendees and the event was very well received.

- 1.8.3 The next Landlord Forum is scheduled for March 2017 and will be held here at Tonbridge & Malling B.C.

1.9 Housing Needs Update

- 1.9.1 The majority of customers contacting the Housing Options and Support team need help to keep their current home or to find and secure a new home. The table below shows the number of customers approaching the team

Month	Options Presentations	Resolved at first point of contact	Homelessness Prevented	Ongoing Cases
Apr 2016	66	51	8	0
May 2016	44	26	9	3
Jun 2016	54	23	14	12
Jul 2016	55	32	10	8
Aug 2016	58	29	7	16
Sep 2016	62	16	4	36
Total	339	177	52	75

- 1.9.2 In addition in the first 6 months of this financial year the team dealt with 64 homeless applications. The full housing duty was accepted for 38 households, 13 households were found not to be homeless, 7 households were found not to have a priority need for accommodation and a further 6 households were found to have become homeless intentionally. Even where a full duty is not owed, the team will continue to provide advice and assistance to help households resolve their housing needs.

1.10 Temporary Accommodation

- 1.10.1 The following table provides a 'snapshot' number of homeless households living in temporary accommodation at the end of each month. The majority of homeless households are currently waiting for two bedroom accommodation, which is in high demand both from Kent Homechoice and the private sector where two bedroom properties are often priced higher than the current local housing allowance levels. This means that they can be waiting for longer periods before households are rehoused.

Date	Number in self contained temporary accommodation (AST)	Number in self contained temporary accommodation (nightly paid)	Number in traditional bed & breakfast	Total
30.04.16	4	20	1	25
31.05.16	4	19	7	30
30.06.16	4	19	7	30
31.07.16	4	16	6	26
31.08.16	5	15	7	27
30.09.16	8	17	5	30

1.10.2 We continue to look at different options to reduce the time households stay in nightly paid temporary accommodation and have recently been successful in securing four on one bedroom properties from the private sector. These include a one bedroom apartment in Snodland and three one bedroom apartments in Tonbridge. The rent on the properties is set at local housing allowance levels reducing the overall cost to the Council as well as allowing the customer to be more settled in accommodation whilst waiting for a permanent allocation from the housing register or a private rented sector offer.

1.11 Accessing the Private Rented Sector

1.11.1 It is challenging for households on a low income to access the private sector as many private landlords are seeking rent levels considerably higher than the local housing allowance (LHA) rates.

1.11.2 Many households are choosing to consider properties that are smaller than their household would ideally need, for example many one bedroom properties in the borough are priced more in line with the two bedroom LHA rate. This means a couple with one child on a low income would be entitled to financial assistance for the two bedrooms LHA rate but could only afford to rent a one bedroom property private rented property.

1.12 Homeless Reduction Bill

1.12.1 The Homeless Reduction Bill, had its second reading in parliament on 28 October 2016 and aims to introduce new duties on councils assisting customers who are homeless or threatened with homelessness.

The proposals include;

- A requirement to assist households who are likely to become homeless within 56 days, a change from the existing 28 days.
- A duty to accommodate applicants, regardless of priority need and local connection (although these two tests will have to be satisfied before the

authority makes a final decision on the longer term duties owed to the applicant).

- 1.12.2 The main impacts of the bill in its current form to Local Authorities will be an increase in the number of households owed an accommodation duty. This is likely to see a significant rise in numbers of households accommodated in temporary accommodation at any one time and put further pressure on the limited stock available to the Council.

1.13 Housing Register

- 1.13.1 The table below shows the distribution of live applications by size of property required on the housing register.

Month	1 bed	2 bed	3 bed	4 bed	5+ bed	Total
April 2016	538	342	112	48	4	1044
May 2016	533	351	106	48	4	1042
June 2016	446	323	100	44	4	917
July 2016	426	327	91	42	4	890
August 2016	416	327	92	41	4	880
September 2016	423	321	98	41	6	889

- 1.13.2 The table below shows the number of households housed via Kent Homechoice during the last six months, broken down by bed need.

Month	1 bed	2 bed	3 bed	4 bed	5+ bed	Total
April 2016	15	8	3	0	0	26
May 2016	13	6	3	1	0	23
June 2016	16	13	5	0	0	34
July 2016	15	9	8	0	0	32
August 2016	14	9	9	0	0	32
September 2016	10	13	6	2	0	31
Total	83	58	34	3	0	178

- 1.13.3 The following table shows the waiting times of applicants that have been housed via Kent Homechoice during the six month period between 1 April 2016 and 30 September 2016, broken down by size and type of accommodation. Whilst these figures can be helpful in demonstrating timescales involved from application to allocation it should be noted that some applicants will wait longer for particular property types or locations and this will affect the overall waiting times and so the average waiting times on the far right of the table is realistic for the majority of applicants .

Property type	Number of lets	Shortest wait	Longest wait	Average wait
Sheltered	23	5 weeks	6 years	8 months
1 bed	58	5 weeks	6 years	16 months
2 bed flat	39	4 weeks	6 years	18 months

2 bed house	26	9 weeks	7 years	22 months
3 bed house	41	3 months	5 years	12 months
4 bed house	0			

1.14 Legal Implications

1.14.1 None arising from this report.

1.15 Financial and Value for Money Considerations

1.15.1 None arising from this report.

1.16 Risk Assessment

1.16.1 None arising from this report.

1 November 2016

Dear Tom,

We are writing to you following a recent meeting of the Council's Communities and Housing Advisory Board and the continuing concern held by Members about how we can address the housing pressures facing the borough and meet our statutory duties in respect of homelessness, whilst continuing to ensure the creation of mixed and vibrant communities that benefit all our residents. We have sent a similar letter to Tracey Crouch.

You will be aware that we are currently out to public consultation on our local plan at the 'issues and options stage'. In terms of our objectively assessed housing need the emerging Local Plan identifies that for the period 2011-2031, 673 new homes a year are required, of which 277 should be affordable. Within the 277 affordable homes it is estimated that 70 per cent should be for social and affordable rent and 30 per cent should be in the form of intermediate housing products such as shared ownership. These figures will of course be subject to viability testing but provide the foundation for our planning targets moving forward.

Historically we have been successful in enabling a consistent and healthy supply of accommodation across a diverse range of tenures and locations within the borough. The planning system and affordable housing definitions have served us well and enabled a relatively good level of performance compared to other authorities across the County. This approach has underpinned our ability to meet the housing needs of a broad spectrum of households on a range of incomes. Although for the time being, the borough maintains a healthy and diverse programme of affordable housing supply, a cautionary note is still required in terms of the position moving forward.

You will recall previous correspondence describing the emerging and continuing challenges to the provision of future affordable rented housing including:

- Changes to the National Planning Policy Framework redefining Affordable Housing to include Starter Homes
- Duty on Councils to promote Starter Homes
- Significantly reduced capital grant funding for rented homes
- Welfare and Housing reform - including 1 per cent rent cuts and extension of the Right to Buy to Housing Association (HA) tenants
- Increasing private sector rents

Whether taken singly or as a combination these changes are creating an environment that compromises our ability to meet the housing need of our residents who cannot afford to enter into any type of home ownership.

The changes to the National Planning Policy Framework (NPPF), which expands the definition of affordable housing to include Starter Homes and the provisions contained within the Housing & Planning Act that places a duty on local authorities to promote the supply of these homes (20 per cent) prior to seeking other forms of affordable housing, will in our view make it even more challenging to deliver affordable rented tenures beyond the initial Starter Homes contribution. As a West Kent authority already facing considerable affordability pressures due to the ever increasing gap between local incomes and local house prices, we remain extremely concerned that this change to planning policy is not one that will address the broader housing needs of our communities across a range of tenures.

We have in recent months experienced developers contacting us seeking to renegotiate existing S106 agreements on viability grounds, whereby the rented units are being reduced and replaced by shared ownership and private market homes. This situation is further exacerbated by government funding being increasingly diverted away from low cost renting towards the private market and homeownership. Just 4 per cent of the current £45 billion Shared Ownership and Affordable Homes Programme 2016-2021 is intended to be spent on below market rented housing. The focus is now very much on shared ownership and rent to buy products. We understand and support the policy to encourage home ownership in some form but we also know that our proven need includes a high proportion of households whose needs can only realistically be met by low cost, rented accommodation. We are concerned that in the current policy environment that need will simply not be addressed by supply.

The current changes represent further challenges on the ability of our Housing Association (HA) partners to meet our assessed need for rented homes. Although most of our HA partners have reiterated their desire to maintain a social purpose and build sub market rented homes, the reality of the situation is that the delivery of any type of rented accommodation in future is unlikely to be financially viable.

In situations where an element of affordable rented units is deliverable this will be at rents set at 80 per cent of market rent. This in itself is a significant issue for the borough as these rental costs are out of the reach of many working households altogether. For example, a typical level of affordable rent on a 3 bedroom house in Tonbridge, provided by one of our partners, is around £220 per week. It is those working households on modest incomes that continue to be frozen out of access to rental accommodation both social and private as rents continue to rise.

This picture is set against a backdrop of an unprecedented number of households presenting as homeless and being placed in temporary accommodation. Over the last two years we have seen this more than double. In 2015/16 we determined 235 homeless applications and accepted the full statutory housing duty to 134 households, of which 90 households were placed in temporary accommodation, in some cases out of the borough. The majority of these households require two bedroom rented accommodation, which is in high demand meaning that they can be waiting for anywhere between 18 to 24 months to be rehoused. This has resulted in long stays in temporary accommodation while suitable accommodation is sought.

The private rented sector continues to be challenging to access as the differential between local housing allowance rates (frozen at 2011 levels and set at the 30th percentile below the prevailing market rates) and rent levels continue to widen. The stamp duty surcharge introduced for second properties and tax and regulatory changes such as mortgage interest tax relief, have adversely affected the buy to let market. Not only have sales dropped but existing rents are increasing as landlords seek to pass on these newly incurred costs, further marginalising those members of society who are already struggling.

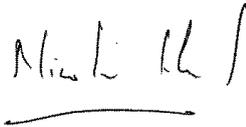

All in all these are very challenging times for the Council and pose a real threat on our ability to robustly undertake our role as the Strategic Housing Authority. Demand continues to increase yet the options for householders who cannot afford homeownership are diminishing and set to reduce further. Increasing supply across all tenures and affordability remain important issues for us.

We support the Living Rent model recently adopted in London whereby rents are based on a third of average local income, enabling households to save and ultimately buy the property at the end of their tenancy. On average social rents take 13 per cent of income compared with 28 per cent for private lettings.

This has the additional benefit of realising savings to the national welfare bill. However, the simple fact remains that for a variety of reasons not every household will be able to enter into home ownership. It is for this reason that we ask you to support a more flexible approach to housing budgets by Government that enables more sub market rented homes to be built at rents that households can afford to pay in the same way that it is encouraging home ownership initiatives and for these changes to be included in the Autumn Statement and the impending Housing White Paper.

We are not suggesting this letter outlines all the impacts of the recent reforms to our planning, housing, and welfare systems. Rather more it seeks to highlight our grave concerns that planning processes and housing policy and finance will no longer deliver balanced, mixed communities nor support the needs of those who are vulnerable or on lower incomes that still need to be adequately housed in truly affordable accommodation at low level rents.

Yours sincerely,

Nicolas Heslop
Leader

Sophie Shrubsole
Cabinet Member for Housing
