Climate Change Strategy

(Report of Management Team)

The report gave details of the motion on climate change approved by the Council on 9 July 2019 and set out an approach to addressing the issues involved and bringing forward a Draft Climate Change Strategy by May 2020.

Members were invited to contribute to the shaping of the strategy by sending initial thoughts and comments to the Scrutiny and Partnerships Manager. It was noted that, following approval of the draft by the Council, there would be a period of public consultation to inform the final strategy. In the meantime it was agreed that all reports should include a section on assessment of climate change impact.

Following consideration by the Street Scene and Environment Services Advisory Board, the Cabinet Member for Street Scene and Environment Services resolved that:

The timescale for delivery of the Draft Climate Change Strategy, as set out in the report, be endorsed.

Reasons: As set out in the report submitted to the Street Scene and Environment Services Advisory Board of 3 September 2019.

(Report of Director of Street Scene, Leisure and Technical Services)

The report provided an update on the new Waste Services Contract which started on 1 March, including the improved recycling services due to commence on 30 September 2019. Details were given of key contractor performance indicators, the uptake of the opt-in garden waste service and arrangements for marketing and communication with residents on the new service. Reference was also made to the proposed timeframe for the implementation of the revised bring bank sites and arrangements for communal bins. Members' assistance was sought in disseminating information to their residents.

Following consideration by the Street Scene and Environment Services Advisory Board, the Cabinet Member for Street Scene and Environment Services resolved that:
