

TONBRIDGE AND MALLING BOROUGH COUNCIL

RISK MANAGEMENT STRATEGY

1. Introduction

The risk management strategy of Tonbridge and Malling Borough Council is to adopt best practices in the identification, evaluation, and cost-effective control of risks. This is intended to ensure that risks are reduced to an acceptable level or, where reasonable eliminated, thereby safeguarding the Council's assets, employees and customers and the delivery of services to the local community.

One of the Council's aims is to:

“Maintain the Council's high standards of financial management and probity”.

The Council endeavours to pursue a forward-looking and dynamic approach to delivering services to the local community and will not be averse to taking a degree of commercial risk. However, it will always exercise a prudent approach to risk taking and decisions will be made within the parameters of the Council's internal control arrangements, i.e. Constitution, Procedural Rules, etc. These arrangements will serve to ensure that the Council does not expose itself to risks above an acceptable level.

Risks relating specifically to Health & Safety matters will be covered within the Council's Health & Safety Policy and supporting guidance notes issued by the Director of Planning, Housing and Environmental Health.

2. Objectives

The risk management objectives of the Council are to:

- embed risk management into the culture of the Council;
- monitor, manage and report on risk in accordance with best practice;
- be responsive to changing social, environmental and legislative requirements whilst effectively managing the related risks and opportunities;
- prevent injury, damage and loss and reduce the cost of risk;
- raise awareness of the need for risk management;
- actively promote 'sensible and responsible risk management' using practical steps to protect workers and the public from real risks that cause injury and death.

These objectives will be achieved by:

- defining the roles and responsibilities, in relation to risk management, of Officers and Members within the organisation;
- maintaining a risk management framework that will ensure the review on a rolling basis of strategic, operational and project risks faced by the Council – this approach will:

- identify corporate, operational and project risks;
 - assess the identified risks for likelihood and impact;
 - record the corporate risk register, linking these risks to strategic business objectives and assigning ownership for each risk;
 - detail the management action/controls required to mitigate identified risks;
 - require the corporate risk register to be discussed with the Audit Committee prior to approval by Council;
 - require confirmation to the Audit Committee of the reviews undertaken and to draw out any issues where deemed appropriate as a result;
 - require the reporting of risks to full Council where appropriate;
 - require all Cabinet/Committee/Board reports to include a section covering the key risk issues to be considered, together with any action required to mitigate identified risks;
 - require a risk assessment to be completed for all significant new projects and initiatives;
 - require the Treasury Management Strategy to outline the arrangements for properly managing treasury management risks;
 - require risks in relation to significant partnerships to be identified and assurances to be obtained regarding the management of those risks;
 - require appropriate incident recording to facilitate the analysis of risk data and steps taken to prevent or mitigate similar incidents occurring;
 - require an annual review of the risk management framework by the review of this strategy.
- providing relevant training on risk management to employees and Members of the authority;
 - actively participating in inter-authority internal audit and insurance groups thereby developing and sharing best practice in risk management;
 - encouraging officers participating in other professional discipline groups to secure the inclusion of risk management as an agenda topic;
