**Progress Report – Tonbridge Interchange Improvements**

To: **Tonbridge & Malling JTB, 11<sup>th</sup> March, 2019**

Main Portfolio Area:

By: Tim Read – Head of Transportation, KCC

Classification: **For Information**

---

**Summary:**

**A verbal update on project progress for the Tonbridge Station project.**

---

**1.0 Introduction and Background**

Works have completed on the West Kent Local Growth Fund (LGF) scheme to improve the Transport Interchange at Tonbridge Station. The aim is to improve interaction between users at the station, provide more space for pedestrian movements and to create an interchange suitable for one of the busiest stations outside of London.

Since completion of the scheme some minor improvements to the traffic signals have been identified to help manage the traffic and pedestrian flows more efficiently. A verbal update on these improvements will be provided by the KCC officer.

Future Meeting if applicable: Future JTB for updates	Date: 10 <sup>th</sup> June, 2019
