

RISK MANAGEMENT STRATEGY

January 2021

1. Introduction

- 1.1. The risk management strategy of Tonbridge and Malling Borough Council (the Council) is to adopt best practices in the identification, evaluation, and cost-effective control of risks. This is intended to ensure that risks are reduced to an acceptable level or, where reasonable eliminated, thereby safeguarding the Council's assets, employees and customers and the delivery of services to the local community.
- 1.2. The Council endeavours to pursue a forward-looking and dynamic approach to delivering services to the local community and will not be averse to taking a degree of commercial risk. However, it will always exercise a prudent approach to risk taking and decisions will be made within the parameters of the Council's internal control arrangements, i.e. Constitution, Procedural Rules, etc. These arrangements will serve to ensure that the Council does not expose itself to risks above an acceptable level.

2. Mandate and commitment

- 2.1. This strategy is supported and endorsed by the Management Team and Members of the Audit Committee who will ensure that:
 - The risk management objectives are aligned with the objectives and strategies of the Council
 - The Council's culture and risk management strategy are aligned
 - The necessary resources are allocated to risk management
 - There is a commitment to embedding risk management throughout the organisation, making it a part of everyday service delivery and decision making
 - The framework for managing risk continues to remain appropriate

3. Applicability

- 3.1. This strategy applies to the whole of the Council's core functions. Where the Council enters into partnerships the principles of risk management established by this strategy and supporting guidance should be considered as best practice and applied where possible. We would also expect that our significant contractors have risk management arrangements at a similar level, and this should be established and monitored through procurement processes and contract management arrangements.

4. Objectives

- 4.1. The risk management objectives of the Council are to:
 - Embed risk management into the culture of the Council
 - Apply best practice to manage risk using a balanced, practical and effective approach
 - Manage risks in line with its risk appetite, and thereby enable it to achieve its objectives more effectively

- Integrate the identification and management of risk into policy and operational decisions, anticipating and responding proactively to social, environmental and legislative changes and directives that may impact on delivery of our objectives
- Eliminate or reduce the impact, disruption and loss from current and emerging events
- Harness risk management to identify opportunities that current and emerging events may present and maximise benefits and outcomes
- Ensure effective intelligence sharing and collaboration between risk management disciplines across all Council activities
- Ensure fraud risks are proactively considered and embedded into the organisation's risk management arrangements
- Benefit from consolidating ongoing learning and experience through the collation and sharing of risk knowledge; demonstrate a consistent approach to the management of risks when embarking on significant change activity
- Ensure sound and transparent risk management arrangements are operated in partnership and commissioner / provider situations, underpinned by a culture that supports collaboration and the development of trust, ensuring clear effective lines of communication and the management of relationships.

4.2. The delivery of this strategy is the collective responsibility of officers, Service Management Teams, Management Team, the Council's partners and Members, with delivery being assured by the Management Team.

5. Roles and responsibilities

- 5.1. Responsibility for risk management runs throughout the Council; everyone has a role to play. Managers and staff that are accountable for achieving an objective are accountable for managing the risks to achieving it. To ensure that risk management is successful, the roles and responsibilities of key groups and individuals must be clearly identified, see table at 5.3 below.
- 5.2. Other officer groups' deal with related risk specialisms such as Health and Safety; Treasury Management; Emergency Resilience and Business Continuity; Insurance; Information Security; Anti-fraud, bribery and corruption, etc. These groups are linked into the governance arrangements of the Council so that their work is co-ordinated within the Council's overall risk management framework.
- 5.3. In order to support Members and Officers with their responsibilities, risk management guidance is available.
