<u>'SECTION 25' STATEMENT</u> ON THE ROBUSTNESS OF THE ESTIMATES AND THE ADEQUACY OF THE RESERVES

Introduction

This statement is given in respect of the 2023/24 Budget Setting Process for Tonbridge and Malling Borough Council. I acknowledge my responsibility for ensuring the robustness of the estimates and the adequacy of the reserves as part of this process. The budget has been prepared within the context of a Medium Term Financial Strategy (MTFS) spanning a ten-year period.

The MTFS sets out the high level financial objectives the Council wishes to fulfil over the agreed time span. This includes achieving a balanced revenue budget by the end of the strategy period and to retain a minimum of £3.0m in the General Revenue Reserve by the end of the strategy period and not to fall below £2.0m at any time during the 10-year period. The MTFS also sets out, based on current financial information, not only the projected budgets for the period, but also the levels of council tax that are projected to be required to meet the Council's spending plans.

By way of context, since 2010/11 the Council has seen its Settlement Funding Assessment (core funding) decrease by some 62% or £4.1m (from £6.6m in 2010/11 to £2.5m in 2023/24).

The fall in core funding is, in part, negated by the grant award under the New Homes Bonus (NHB) scheme and other grant income. However, the future of NHB or a replacement remains the subject of discussion, but at the very least will not continue in its current form leaving one of two options. The scheme is withdrawn and not replaced or is replaced, but where the funding stream and sum awarded is much reduced (our working assumption). The future of other grant income more generally is also uncertain.

Dependent on the outcome of the yet to be concluded Fair Funding Review, what is to happen to NHB and other grant income moving forward, business rates reforms, the extent and speed of the recovery following the pandemic and the impact of the current adverse economic climate, there is a **risk** the funding gap could be more than is presently reflected in the MTFS.

In the latest iteration of the MTFS it is assumed government grant funding and increased business rates income to be retained will reduce from circa £5.96m in 2023/24 to £3.11m in 2027/28 before seeing a modest increase year on year thereafter and that the reductions in income and increased costs seen as a result of the pandemic in large part **will return** to pre Covid-19 levels in the short to medium term; where the latest projected funding gap between expenditure and income is **circa £1,700,000**. **Plus** the initiative already built into the MTFS, scaling back of office accommodation in the sum of **£200,000** by April 2024.

Annex 16a

The difficult and challenging financial outlook demands a **pressing and concerted** focus of attention. Accordingly, matters relating to the medium term finances have been recorded as RED on the Strategic Risk Register in order to ensure that this is visible and highlighted as a priority for the Council.

Alongside the MTFS sits a Savings and Transformation Strategy. The purpose of the Strategy is to provide structure, focus and direction in addressing the financial challenge faced by the Council. In so doing, it recognises that there is no one simple solution and as a result we will need to adopt a number of ways to deliver the required savings and transformation contributions within an agreed timescale.

Robustness of Estimates

The aim of the Medium Term Financial Strategy is to give us a realistic and sustainable plan that reflects the Council's priorities and takes us into the future. It is a Strategy that is adopted by Members of the Council alongside the Budget to provide a forward looking context for the consideration of the budget year ahead. It also provides the Council's Corporate Management Team with a tool for strategic financial planning and decision making.

Underneath the Strategy sits detailed estimates formulated in conjunction with Service Managers who carry responsibility of delivering their area of service within budget provision. The estimates take into account past outturn, current spending plans and likely future demand levels / pressures.

Factors taken into account for the 2023/24 Budget Setting Process and in developing the Strategy are:

Corporate Strategy	The Council's financial plans should be in support of its strategic priorities and objectives set out in overview in the Corporate Strategy. The Strategy sets out Our Vision: To continue to be a financially sustainable Council with strong leadership that delivers valued services, a commitment to delivering innovation and change to meet the needs of our Borough guided by our values and priorities: Achieving efficiency; Embracing effective partnership working; Valuing our environment and encouraging sustainable growth; and Innovation. The current Corporate Strategy is the subject of review and public consultation with the intention to publish a revamped and refreshed Corporate Strategy in the near future.
Consultation with Non-Domestic Ratepayers	The Council consults representatives of its non-domestic ratepayers about its expenditure proposals who may make written representations if they deem it appropriate. No such representations have been received.
The level of funding from Central	Our Settlement Funding Assessment (SFA) for 2023/24 is £2,525,211. The Council also received a payment for

Government	the under-indexing of the business rates multiplier of
towards the costs of	· · · · · · · · · · · · · · · · · · ·
local services	£406,754, a Services Grant of £89,412 and a one-off funding guarantee in the sum of £1,765,688. It has been
local services	assumed in our financial planning that the one-off
	funding guarantee applies to this Spending Review
	period, the years 2023/24 and 2024/25.
New Homes Bonus	Our New Homes Bonus (NHB) for 2023/24 is £610,499.
New Homes Donus	The future of NHB or a replacement remains the subject
	of discussion, but at the very least will not continue in its
	current form leaving one of two options. The scheme is
	withdrawn and not replaced or is replaced, but where the
	funding stream and sum awarded is much reduced (our
	working assumption).
Business Rates	For medium term financial planning purposes it is
Duomoco ratoo	assumed retained business rates income will be above
	the baseline funding level under the current Business
	Rates Retention Scheme arrangements. If our actual
	income is less than the baseline set the authority will
	have to meet a share of that shortfall. The Council is a
	member of the Kent Business Rates Pool.
Overall Grant	For medium term financial planning purposes, it is
Funding	assumed government grant funding whether that be
	baseline funding level, some element of growth
	performance, NHB or its replacement or other grant
	income will reduce to £3.11m in 2027/28 before seeing a
	modest increase year on year thereafter. This will need
	to be revisited following the outcome of the Fair Funding
	Review, what happens to NHB and other grant income.
Covid-19 Pandemic	It is assumed that the reductions in income and
	increased costs seen as a result of the pandemic in large
	part will return to pre Covid-19 levels in the short to
	medium term including the current high homeless
	caseload and consequent significant and escalating cost
	of temporary accommodation. The extent and speed of
	the recovery will need to be closely monitored and to
Coursil Toy Doos	take corrective action if this is proved not to be the case.
Council Tax Base	The Council Tax Base for 2023/24 is 52,706.29 band D
	equivalents with an expectation that this will increase by
	5,650 over the strategy period, or around 625 on
Local Referendums	average per year. The Secretary of State will determine a limit for council
to Veto Excessive	tax increases which for 2023/24 has been set at 3% or
Council Tax	£5, whichever is higher. If an authority proposes to raise
Increases	council tax above this limit they will have to hold a
	referendum to get approval for this from local voters who
	will be asked to approve or veto the rise. Due regard
	has been taken of the guidelines issued by the Secretary
	of State. The MTFS reflects an increase in council tax of
	3% in 2023/24 and 2024/25 followed by the higher of 2%
	or £5 each year thereafter.
<u> </u>	, , , , , , , , , , , , , , , , , , ,

Annex 16a

The Prudential	Tonbridge and Malling is a debt-free authority and
Code and its impact	projections suggest that recourse to borrowing to fund
on Capital Planning	capital expenditure is unlikely before 2029/30. This does
	not however, preclude a decision to borrow in order to
	fund in full or in part a capital investment opportunity that
	meets the Council's strategic priorities and objectives,
	achieves value for money and delivers a financial return.
	Each such opportunity to be considered on a case by
	case basis as appropriate. A key objective of the
	Prudential Code is to ensure, within a clear framework,
	the capital investment plans of local authorities are
	affordable, prudent and sustainable.
The Council's	Other than funding for the replacement of our assets
Capital Strategy	which deliver services as well as recurring capital
and Capital Plan	expenditure, there is now an annual capital allowance for
	all other capital expenditure. Subject to review each
	year the maximum 'annual capital allowance' is to be set
	at £250,000 for the period 2023/24 to 2028/29.
Treasury	A Treasury Management and Annual Investment
Management	Strategy is adopted by the Council each year as required
	by the Local Government Act 2003 as part of the budget
	setting process. The Strategy sets out the Council's
	policies for managing its investments and for giving
	priority to the security and liquidity of those investments.
	Updates to both the Prudential Code and Treasury
	Management Code were published by the Chartered
	Institute of Public Finance and Accountancy (CIPFA) in
	December 2021 and uphold a key principle that
	borrowing primarily for return on investment is not permissible.
	The requirements of the updated Codes of Practice have
	been taken into account and reflected as appropriate in
	the annual review and update of the Capital Strategy and
	in preparing the Treasury Management and Annual
	Investment Strategy for 2023/24.
Interest Rates	Interest returns on the Council's 'core funds' have been
	set at 4.3% in 2023/24, 3.8% in 2024/25 and fluctuating
	between 3.0% and 2.75% thereafter. In setting these
	rates due regard has been taken of the interest rate
	forecasts of the Council's independent Treasury Adviser,
	Link Asset Services. To put this into context, 0.25 of a
	percentage point would currently generate investment
	income on our 'core funds' of about £55,000.
	Conversely, a dip in investment returns would have a
	negative impact on the Council's budget. The Council
	has chosen to retain a minimum of £3m in its General
	Revenue Reserve in order to deal with, amongst other
	things, interest rate volatility.
Property Investment	The Council has taken the decision to invest in one or
Funds and Multi	more property investment funds and more recently multi

Annex 16a

Asset Diversified	asset diversified income funds with further potential
Income Funds	investment of funds in the future. In order to guard
moonio i unuo	against downward fluctuations in asset values a
	Property Investment / Multi Asset Diversified Income
	Fund Reserve was established.
Adequacy of	At the beginning of 2023/24, we anticipate that the
Reserves	General Revenue Reserve balance will be £8.178m.
	The Adequacy of Reserves is discussed in more detail
	below.
Pay and Price	The estimates provide for pay inflation of 5% in 2023/24
Inflation	and 2.5% in 2024/25 followed by 2% each year
	thereafter and general price inflation of 10% in 2023/24
	and 4% in 2024/25 followed by 2% each year thereafter.
	Exceptions include energy and the waste services
Face and Charmes	contract where different indices have been applied.
Fees and Charges	As has been the practice for a number of years now the
	objective has been to maximise income, subject to market conditions, opportunities and comparable
	charges elsewhere.
Emerging Growth	The projections within the MTFS include all known and
Pressures and	quantified priorities and growth pressures that we are
Priorities	aware of at the present time. New priorities and growth
	pressures will undoubtedly emerge over the period and
	in consequence, the Strategy will be updated at least
	annually.

The Council recognises that not all risks are financial; and takes into account all risks when making decisions.

	This incorporates Risk Management and the Council is
	committed to a Risk Management Strategy involving the preparation of Risk Registers at both strategic and operational levels.
Equality Impact Assessments	Where there are deemed to be equality issues as a result of adjustments to revenue budgets a separate equality impact assessment has or will be undertaken at the appropriate time. In addition, an equality impact assessment is undertaken and reported to Members prior to commencement of a new capital plan scheme.
Partnership Working	The Council is working in partnership with other councils with the aim of not only delivering savings through joint working, but also to improve resilience and performance.
Government Led Issues	The outcome of the Fair Funding Review; the sustainability of the NHB scheme and what will follow; business rates reforms; Welfare Reform and cessation of the administration of housing benefits for working age claimants; the ongoing impact of the localisation of council tax support; the transfer of the Land Charges function to HM Land Registry; and proposals to devolve the setting of planning fees will impact on the Council's finances in-year and over the medium to longer term. The increased volatility and uncertainty attached to a number of these issues is such that financial planning is becoming increasingly difficult with the increased risk of significant variances compared to projections. As a result we will need to closely monitor the impact of these issues on the Council's finances.
Savings and Transformation Contributions	Latest projections point to a 'funding gap' between expenditure and income of circa £1,700,000. Plus the initiative already built into the MTFS, the scaling back of office accommodation in the sum of £200,000 by April 2024. The difficult and challenging financial outlook demands a pressing and concerted focus of attention. Dependent on the outcome of the Fair Funding Review, the future of NHB and other grant income, business rates reforms, the extent and speed of the recovery following the pandemic and the impact of the current adverse economic climate, there is a risk the funding gap could be more than is presently reflected in the MTFS. In the coming months, options to deliver a further tranche(s) of the required savings and transformation contributions will need to be considered, agreed and actioned under the framework set out in the STS. In addition, the Management Team will continue to seek efficiency savings in the delivery of existing services.

These assumptions and changing circumstances will require the Strategy to be reviewed and updated at least annually.

Three key questions remain to be answered:

- Firstly, what will our business rates baseline and baseline funding level be and how will this compare to that reflected in the MTFS taking into account transfer of any new responsibilities?
- Secondly, what is the extent to which NHB will feature in future government grant funding and if replaced what level of funding would we receive in its place?
- Thirdly, over what time period will other grant income be 'in play' and how much might we expect to receive year on year in that period?

A further key question is, will the reductions in income and increased costs seen as a result of the pandemic return in large part to pre Covid-19 levels to the extent and in the timescale assumed?

The answers to these questions are fundamental for the ongoing financial planning for this Council.

Particular reference has been made to the current adverse economic climate most notably inflation and temporary accommodation costs for homelessness purposes.

For planning purposes it has been assumed that the current high levels of inflation will over the next few years return to levels more akin to that assumed when the budget for the year 2022/23 was set in February 2022. If high levels of inflation persist beyond the period assumed this will have implications for the ongoing robustness of the estimates and the MTFS.

In terms of homelessness, the MTFS assumes that the recent significant increases in costs will be brought under control over the medium term, but if this can be addressed in an accelerated timescale this will relieve some of the pressure that is inevitably resting on the reserves.

Adequacy of Reserves

The minimum prudent level of reserves that the Council should maintain is a matter of judgement. It is the Council's safety net for unseen or other circumstances. The minimum level cannot be judged merely against the current risks facing the Council as these can and will change over time. The objective is to retain a minimum of £3.0m in the General Revenue Reserve by the end of the strategy period and not to fall below £2.0m at any time during the 10-year period; and given below are areas of operational and financial risk (not exhaustive) considered in determining the appropriate minimum level:-

- Global Pandemic
- Interest Rate volatility

- Income volatility
- Change to Government Grant including New Homes Bonus
- Identified savings not being delivered in the required timescales
- Localisation of council tax support
- Business rates retention scheme and associated volatility of income
- Local Plan / Planning Inquiries
- Partnership Working
- Climate Change
- Emergencies
- Economic and world recession
- Poor performance on Superannuation Fund
- Bankruptcy / liquidation of a major service partner
- Closure of a major trading area, e.g. leisure centre for uninsured works
- Cyber/data loss
- Problems with computer systems causing shortfall or halt in collection performance
- Government Legislation
- Ability to take advantage of opportunities
- Uninsured risks
- Recruitment and retention of staff and associated capacity issues

Clearly, the minimum General Revenue Reserve balance needs to and will be kept under regular review. The General Revenue Reserve balance at 31 March 2033, the end of the 10-year MTFS, is estimated to be £4.220m based on an increase in council tax of 3% for 2023/24 with the Council working to a balanced budget.

In addition, a number of Earmarked Reserves exist to cover items that will require short-term revenue expenditure in the near future.

The Revenue Reserve for Capital Schemes is established to finance future capital expenditure. A funding statement illustrates that recourse to borrowing to fund capital expenditure is unlikely before 2029/30 other than by exception on a case by case basis. The Revenue Reserve for Capital Schemes balance at 31 March 2029 is estimated to be £5.0m.

A schedule of the reserves held as at 1 April 2022 and proposed utilisation of those reserves to 31 March 2024 is provided in Annex 16b.

Balances held generate interest receipts which support, underpin and contribute towards meeting the objectives of the Strategy.

The Chartered Institute of Public Finance and Accountancy Financial Management Code and Financial Resilience Index

In October 2019 the Chartered Institute of Public Finance and Accountancy (CIPFA) published a Financial Management Code (FM Code) to support good practice in financial management and to assist local authorities in demonstrating their financial sustainability. The FM code is based on a series of principles supported by specific standards and statements of practice considered necessary to provide the strong foundation to:

- financially manage the short, medium and long-term finances
- manage financial resilience to meet unforeseen demands on services
- financially manage unexpected shocks in their financial circumstances.

The Code requires that a local authority demonstrate that its processes satisfy the principles of good financial management for an authority of its size, responsibilities and circumstances and sought to rely on the local exercise of professional judgement backed by appropriate reporting.

Compliance will typically, but not always, be demonstrated by documenting compliance by way of a self-assessment. The outcome of such an assessment using a RAG rating was reported to the 26 July 2021 Audit Committee where a green rating was assigned to all but two, rated amber, of the seventeen Financial Management Standards.

In addition, the CIPFA Financial Resilience Index aims to provide a tool with a group of indicators able to illustrate the trajectory of an authority's financial position and resilience within the context of each authority's own comparator tier and nearest neighbour group. CIPFA has designed the index to provide reassurance and prompt challenge where it may be needed.

There are no particular concerns to draw to Members attention from a review of the Financial Resilience Index published in January 2023. A copy of the Index is attached at Annex 16c for information.

Opinion

I am of the opinion that the approach taken in developing the 2023/24 budget meets the requirements contained in the Local Government Act 2003 to ensure the robustness of the estimates and the adequacy of the reserves.

Signed: Date: 14 February 2023

Director of Finance and Transformation, BSc (Hons) FCPFA
