

Site 59588

Residential

SA Objective 1: To improve human health and well-being

Significant positive (++)/Uncertain significant negative (--?)

SA Objective 2: To improve equality and access to community facilities and services

Significant positive (++)

The site is placed within the Excellent Accessibility Band.

SA Objective 3: To improve levels of educational attainment and skills and training development for all age groups and all sectors of society

Uncertain minor positive (+?)

The site is within 800m of an existing secondary school or a primary school (but not both). However, uncertainty exists as the effects will depend on there being capacity available at those facilities to accommodate new pupils. It is also noted that the provision of new residential

development could stimulate the provision of new schools and/or school places, however this cannot be assumed at this stage and is therefore uncertain.

SA Objective 4: To encourage sustainable economic growth, business development, and economic inclusion across the borough

Negligible (0)/Negligible (0)

The location of residential sites will not directly influence sustainable economic growth or the delivery of employment opportunities

SA Objective 5: To protect and enhance biodiversity and geodiversity

Uncertain significant negative (--?)

The site contains an existing green infrastructure asset that could be lost as a result of new development. The effect is uncertain as it may be possible to conserve or even enhance the asset through the design and layout of the new development.

SA Objective 6: To protect and enhance the borough's landscape and townscape character and quality

Uncertain significant negative (--?)

The site is not located near any settlements in rural locations, and/or would result in the loss of designated open spaces. These effects are uncertain at this stage as the effects on landscapes and townscapes will depend on the design, scale and layout of development, which may help mitigate any adverse effects.

SA Objective 7: To protect and enhance the cultural heritage resource

Uncertain significant negative (--?)

The site is located within 250m of a heritage asset. Effects are uncertain at this stage as they will depend on factors such as the design of the development and whether there are lines of sight between the development site and nearby heritage assets.

SA Objective 8: To protect and enhance the quality of water features and resources

Negligible (0)/Uncertain minor negative (-?)

The site is either entirely or largely ($\geq 75\%$) within Flood Zone 1. The site does not contain a water body or watercourse but falls within or partially within Source Protection Zones 2 and 3. However, these effects are uncertain as effects resulting from proximity to Source Protection Zones and water bodies are uncertain at this stage.

SA Objective 9: To conserve and enhance soil resources and guard against land contamination

Significant positive (++)

The site is located on brownfield land.

SA Objective 10: To reduce greenhouse gas emissions so as to minimise climate change

Significant positive (++)

The site is within 800m of a railway station.

SA Objective 11: To improve adaptation to climate change so as to minimise its impact

Negligible (0)

The location of development will not affect the achievement of this objective as effects will depend largely on the detailed proposals for sites and their design, which would be influenced by policies in the new Local Plan and details submitted at the planning application stage. The extent to which the location of development sites would facilitate the use of sustainable modes of transport is considered separately under SA objective 10.

SA Objective 12: To protect and improve air quality

Negligible (0)

The site is not within 100m of an AQMA.

SA Objective 13: To protect material assets and minimise waste

Negligible (0)

The site does not fall within a Minerals Safeguarding Area.

SA Objective 14: To provide a suitable supply of high quality housing including an appropriate mix of sizes, types and tenures

Minor positive (+)

The site is expected to provide fewer than 100 dwellings. It is expected that these smaller sites will not be able to offer as wider mix of housing or making as greater contribution towards local housing needs as larger sites would.

Site 59507

Residential

SA Objective 1: To improve human health and well-being

Significant positive (++)/Uncertain significant negative (--?)

SA Objective 2: To improve equality and access to community facilities and services

Minor positive (+)

The site is placed within the Very Good Accessibility Band.

SA Objective 3: To improve levels of educational attainment and skills and training development for all age groups and all sectors of society

Uncertain significant positive (++)

The site is within 800m of an existing secondary school and a primary school. However, uncertainty exists as the effects will depend on there being capacity available at those facilities to accommodate new pupils. It is also noted that the provision of new residential development could

stimulate the provision of new schools and/or school places, however this cannot be assumed at this stage and is therefore uncertain.

SA Objective 4: To encourage sustainable economic growth, business development, and economic inclusion across the borough

Negligible (0)/Negligible (0)

The location of residential sites will not directly influence sustainable economic growth or the delivery of employment opportunities

SA Objective 5: To protect and enhance biodiversity and geodiversity

Uncertain negligible (0?)

SA Objective 6: To protect and enhance the borough's landscape and townscape character and quality

Uncertain significant negative (--?)

The site is not located near any settlements in rural locations, and/or would result in the loss of designated open spaces. These effects are uncertain at this stage as the effects on landscapes and townscapes will depend on the design, scale and layout of development, which may help mitigate any adverse effects.

The site does not contain a water body or watercourse or fall within a Source Protection Zone.

SA Objective 9: To conserve and enhance soil resources and guard against land contamination

Uncertain significant negative (--?)

The site is greenfield land and contains a significant proportion ($\geq 25\%$) of Grade 3 agricultural land. The uncertainty acknowledges that the Grade 3 agricultural land may be either Grade 3a (high quality) or 3b (not classed as high quality).

SA Objective 10: To reduce greenhouse gas emissions so as to minimise climate change

Minor positive (+)

The site is more than 800m from a railway station but within 400m of a bus stop.

SA Objective 11: To improve adaptation to climate change so as to

minimise its impact

Negligible (0)

The location of development will not affect the achievement of this objective as effects will depend largely on the detailed proposals for sites and their design, which would be influenced by policies in the new Local Plan and details submitted at the planning application stage. SA Objective 12: To protect and improve air quality

Negligible (0)

The site is not within 100m of an AQMA.

SA Objective 13: To protect material assets and minimise waste

Uncertain minor negative (-?)

The site is within a Minerals Safeguarding Area. The site is within a Minerals Safeguarding Area. These effects are uncertain as they will largely depend on factors such as whether the sites would in fact offer viable opportunities for minerals extraction, and it may be possible for prior extraction to occur before a site is developed.

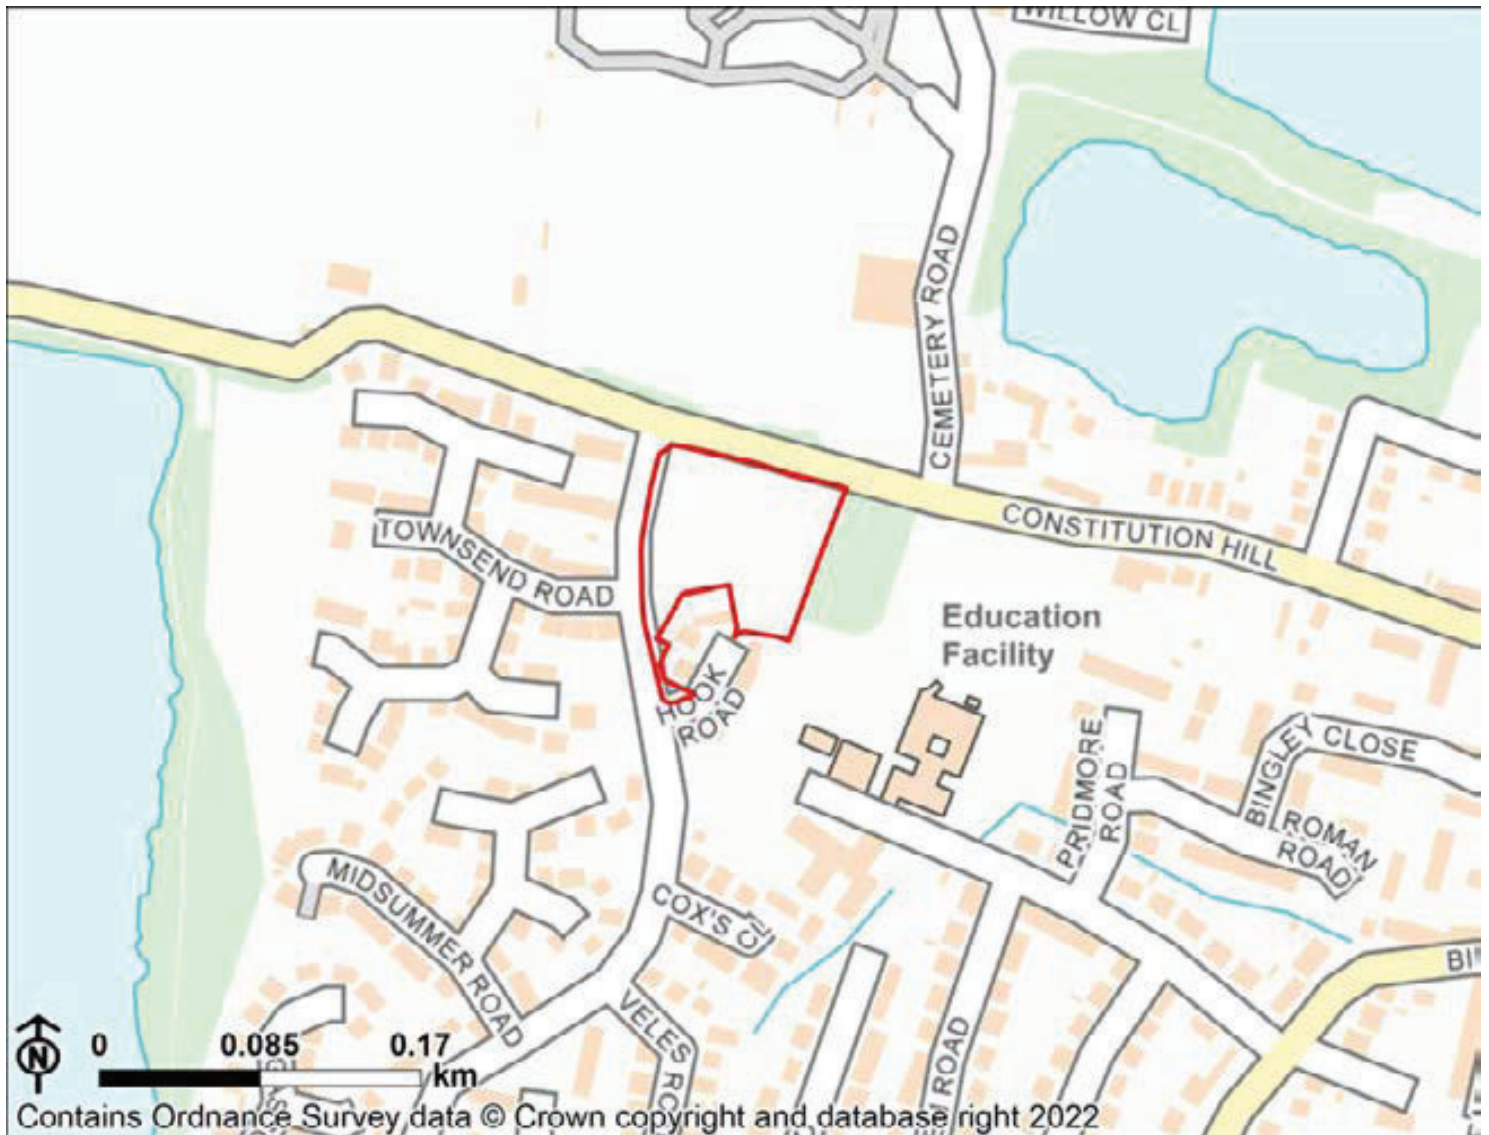

SA Objective 14: To provide a suitable supply of high quality housing including an appropriate mix of sizes, types and tenures

Minor positive (+)

The site is expected to provide fewer than 100 dwellings. It is expected that these smaller sites will not be able to offer as wider mix of housing or making as greater contribution towards local housing needs as larger sites would.

SA Objective 8: To protect and enhance the quality of water features and resources

Significant negative (--)/Negligible (0)

The site is either entirely or significantly (i.e. $\geq 25\%$) within Flood Zone 3 and/or within an area with a 1 in 30 year risk of surface water flooding.

The site does not contain a water body or watercourse or fall within a Source Protection Zone.

SA Objective 9: To conserve and enhance soil resources and guard against land contamination

The site is within 800m of an existing secondary school or a primary school (but not both). However, uncertainty exists as the effects will depend on there being capacity available at those facilities to accommodate new pupils. It is also noted that the provision of new residential development could stimulate the provision of new schools and/or school places, however this cannot be assumed at this stage and is therefore uncertain.

SA Objective 4: To encourage sustainable economic growth, business development, and economic inclusion across the borough

Negligible (0)/Negligible (0)

The location of residential sites will not directly influence sustainable economic growth or the delivery of employment opportunities

SA Objective 5: To protect and enhance biodiversity and geodiversity

Uncertain significant negative (--?)

The site contains an existing green infrastructure asset that could be lost as a result of new development. The effect is uncertain as it may be possible to conserve or even enhance the asset through the design and layout of the new development.

SA Objective 6: To protect and enhance the borough's landscape and townscape character and quality

Uncertain significant negative (--?)

The site is not located near any settlements in rural locations, and/or would result in the loss of designated open spaces. These effects are uncertain at this stage as the effects on landscapes and townscapes will depend on the design, scale and layout of development, which may help mitigate any adverse effects.

SA Objective 7: To protect and enhance the cultural heritage resource

Uncertain significant negative (--?)

The site is located within 250m of a heritage asset. Effects are uncertain at this stage as they will depend on factors such as the design of the development and whether there are lines of sight between the development site and nearby heritage assets.

SA Objective 8: To protect and enhance the quality of water features and resources

Significant negative (--)/Uncertain significant negative (--?)

The site is either entirely or significantly (i.e. $\geq 25\%$) within Flood Zone 3 and/or within an area with a 1 in 30 year risk of surface water flooding.

The site contains a water body or water course or falls within or partially within Source Protection Zone 1. However, these effects are uncertain as effects resulting from proximity to Source Protection Zones and water bodies are uncertain at this stage.

SA Objective 9: To conserve and enhance soil resources and guard against land contamination

Significant negative (--)

The site is greenfield land and contains a significant proportion ($\geq 25\%$) of Grade 1 and/or 2 agricultural land.

SA Objective 10: To reduce greenhouse gas emissions so as to minimise climate change

Minor positive (+)

The site is more than 800m from a railway station but within 400m of a bus stop.

SA Objective 11: To improve adaptation to climate change so as to minimise its impact

Negligible (0)

The location of development will not affect the achievement of this objective as effects will depend largely on the detailed proposals for sites and their design, which would be influenced by policies in the new Local Plan and details submitted at the planning application stage. The extent to which the location of development sites would facilitate the use of sustainable modes of transport is considered separately under SA objective 10.

SA Objective 12: To protect and improve air quality

Negligible (0)

The site is not within 100m of an AQMA.

SA Objective 13: To protect material assets and minimise waste

Uncertain minor negative (-?)

The site is within a Minerals Safeguarding Area. The site is within a Minerals Safeguarding Area. These effects are uncertain as they will largely depend on factors such as whether the sites would in fact offer viable opportunities for minerals extraction, and it may be possible for prior extraction to occur before a site is developed.

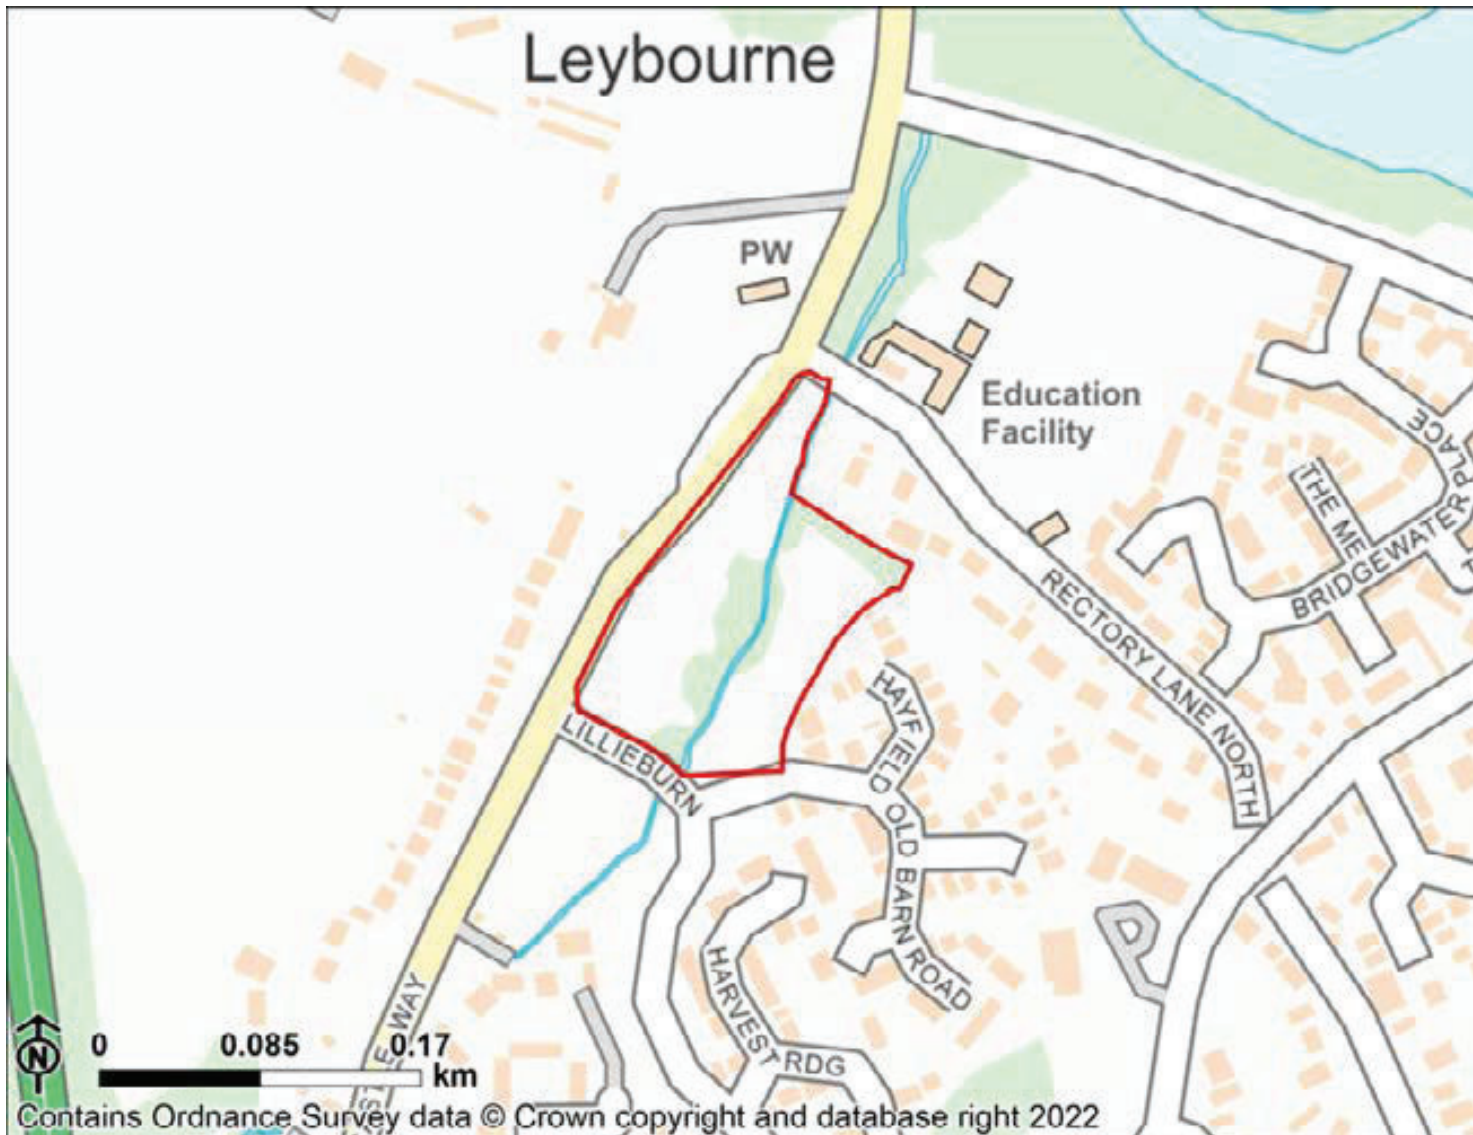

SA Objective 14: To provide a suitable supply of high quality housing including an appropriate mix of sizes, types and tenures

Minor positive (+)

The site is expected to provide fewer than 100 dwellings. It is expected that these smaller sites will not be able to offer as wider mix of housing or making as greater contribution towards local housing needs as larger sites would.

SA Objective 1: To improve human health and well-being

Minor positive (+)/Uncertain significant negative (--?)

The site is within 800m of either an existing healthcare facility or an existing area of open space/ walking and cycle path / play area/ sports facility (but not both).

The site is within an area of open space or currently accommodates an outdoor sports facility and this use may be lost as a result of development. The site is within an area of open space or currently accommodates an outdoor sports facility and this use may be lost as a result of development. However, these negative effects are uncertain as the effects will depend on the exact scale, layout and design of development and whether these existing features are in fact lost to new development.

SA Objective 2: To improve equality and access to community facilities and services

Minor positive (+)

The site is placed within the Very Good Accessibility Band.

SA Objective 3: To improve levels of educational attainment and

skills and training development for all age groups and all sectors of society

Uncertain minor positive (+?)

The site is within 800m of an existing secondary school or a primary school (but not both). However, uncertainty exists as the effects will depend on there being capacity available at those facilities to accommodate new pupils. SA Objective 9: To conserve and enhance soil resources and guard against land contamination

Uncertain significant negative (--?)

The site is greenfield land and contains a significant proportion ($\geq 25\%$) of Grade 3 agricultural land. The uncertainty acknowledges that the Grade 3 agricultural land may be either Grade 3a (high quality) or 3b (not classed as high quality).

SA Objective 10: To reduce greenhouse gas emissions so as to minimise climate change

Minor positive (+)

The site is more than 800m from a railway station but within 400m of a bus stop.
