East Malling

Proposal: Two detached single storey outbuildings to provide a home gymnasium and a garden store, an ornamental pond and garden pergolas
Location: 354 Watringbury Road East Malling West Malling Kent ME19 6JH
Applicant: Mr And Mrs T Binger

1. Description:

- 1.1 The application comprises the erection of two single storey outbuildings which are proposed to be used as a home gymnasium and garden store. The application also includes the erection of garden pergolas and the creation of an ornamental pond.
- 1.2 The intention is to site the outbuildings at the end of the existing garden, one to each corner. The buildings have been designed in brick with tiled roofs. Pergola structures are proposed to link the outbuildings and extend back into the garden towards the dwelling. The ornamental pond is proposed to the front of the outbuildings with a ragstone wall bisecting the garden – the dwelling to the north and the outbuildings, pergola and pond to the south.
- 1.3 Members may recall that planning application TM/13/03492/FL, which proposed the construction of a detached outbuilding for use as a gymnasium and music room, was due to be heard at APC3 in May 2014. That application was withdrawn by the applicant prior to the meeting, but after publication of the Committee Agenda. In that instance, the recommendation was to refuse the application for the following reason.

“The outbuilding by virtue of its size and siting does not constitute an appropriate extension to an existing dwelling and will result in a negative impact on the character of the open countryside. The application is therefore contrary to Policies CP14 and CP24 of the Tonbridge and Malling Core Strategy 2007 and paragraph 58 of the National Planning Policy Framework 2012.”
- 1.4 The present scheme seeks to erect two smaller outbuildings rather than a single outbuilding.
- 1.5 For clarity, the creation of the ornamental pond will involve excavation works which would constitute an engineering operation meaning that this would amount to operational development requiring planning permission. It therefore forms part of the application to be determined. However, the erection of the proposed ragstone wall is considered to fall within Class A (Minor Operations) of Part 2 of the Town and Country Planning (General Permitted Development) Order 1995 (as

amended). This means that this element of the works alone constitutes permitted development and does not form part of the current application for determination. As such, the ragstone wall forms no further part in the assessment that follows.

2. Reason for reporting to Committee:

2.1 At the request of local Ward Members, Councillors Simpson and Woodger.

3. The Site:

3.1 The site lies in the open countryside to the south of East Malling village and to the east of Kings Hill. The site comprises part of a former farm complex known as Heath Farm. The development is accessed from Wateringbury Road. The dwelling is detached with a large rear garden.

4. Planning History:

TM/08/00950/FL Approved 15 September 2008

Development of a total of eight residential units, including redevelopment of existing units and partial variation of condition 4 of planning permission TM/05/00163/OA to enable 8no. residential units within Heath Farm only to be accessed from Wateringbury Road

TM/09/03081/FL Approved 11 May 2010

Amendments to planning application TM/08/00950/FL to use existing buildings for garaging, relocation of new garages and one additional garage with associated minor amendments to layout

TM/10/00854/RD Approved 12 November 2010

Details pursuant to conditions 8 (contamination); 9 (landscaping); 10 (access); and 11 (closure of access) of planning permission TM/08/00950/FL: Development of a total of eight residential units, including redevelopment of existing units and partial variation of condition 4 of planning permission TM/05/00163/OA to enable 8no. residential units within Heath Farm only to be accessed from Wateringbury Road

TM/10/03023/RD Approved 17 December 2010

Details of the implementation of the remediation scheme and certificate of completion submitted pursuant to parts c + d of condition 8 of planning permission TM/08/00950/FL (development of a total of eight residential units, including redevelopment of existing units and partial variation of condition 4 of planning permission TM/05/00163/OA to enable 8no. residential units within Heath Farm only to be accessed from Wateringbury Road)

TM/13/03492/FL Application Withdrawn 29 April 2014

Detached gymnasium and music room for use ancillary to main house

5. Consultees:

5.1 East Malling & Larkfield PC:

Comments received 01.10.14.

5.1.1 The PC note the components of the application and the planning history of the site commenting that the purpose of the original permission was to limit the footprint of the redevelopment in order to maintain the open rural appearance of the site which involved the removal of permitted development rights to erect outbuildings. The PC understands the desire to screen the existing caravan storage area but does not feel this provides sufficient justification for the application. Screening could be provided by additional planting or the proposed ragstone wall moved to the boundary. It is noted that the proposed outbuildings are smaller in floor area than the outbuilding previously proposed under TM/13/03492/FL. However the buildings are still considered large and breach the original allowed footprint thereby having an adverse effect on the countryside.

Comments received 20.10.14.

5.2 The PC seeks confirmation regarding the need for permission for the proposed ragstone wall. The PC reiterates its advice regarding additional planting to achieve screening from the caravan storage site. However concern remains regarding the overall visual impact on what was intended to be an open spacious layout in a countryside location.

[DPHEH: It should be noted that the removal of householder permitted development rights through the grant of the original planning permission was not intended to preclude all further development at Heath Farm but to ensure that any additional development could be considered in light of the prevailing policies of the time through the submission of a formal application.]

5.3 Private Reps: 17/4X/7R/2S + site notice. 7 letters from 3 residents raising the following objections:

- The existing poplar trees provided natural screening from the caravan storage site, however infill trees have been removed and pollarded in contravention of restrictive covenants. Screening can be achieved by replacement planting.
- Why are the buildings proposed to be located at the end of the garden, this is not appropriate siting, and why is a segregating wall between the new structures and the house proposed? Is this a further attempt at back garden development?

- The buildings are permanent structures, again in brick and tile and although disguised as two buildings the overall footprint has little changed from the original application. The previous recommendation for refusal still applies in order to preserve the character of the development.
- The nature of the application has not changed since the previous recommendation for refusal under TM/13/03492/FL. Despite the separation of the building this will remain a significant development in the countryside and is therefore considered inappropriate. The proposed amendments do not overcome the harm that the building will cause.
- Due to the scale and bulk of the proposed development it cannot be considered an appropriate extension and is therefore contrary to policies CP14 and CP24 of the TMBCS and paragraph 58 of the NPPF 2012. The application is also contrary to the original aims of the redevelopment in removing Class E permitted development rights.
- Each building is 23' x 16' = 368' square. The buildings combined = 736' square which is as large as the footprint of two four bedroom houses on the Heath Farm development, and larger than the communal building serving the tennis court. The original redevelopment of Heath Farm restricted the footprint to 1011 m² – this leaves no room for additional buildings to be built.
- The application could constitute a precedent as multiple developments at Heath Farm will have an irreversible detriment on other residents and the countryside. Such applications could lead to a change of use for living purposes or as a separate dwelling house to which there would be strong objection.
- Concern about potential disruption during construction, particularly delivery of materials on the narrow and shared roads.

2 letters of support commenting:

- This is the best way to utilise the large garden.
- This will provide screening against the caravan store and improve the site. The outbuildings will add value to the house and therefore benefit the overall development.
- The residents will be sensitive to their neighbours during construction.
- The future use of buildings would need to seek formal permission – garden development should not be refused on the basis of 'what ifs' or 'what nexts'.

6. Determining Issues:

- 6.1 The redevelopment of Heath Farm formed part of the outline planning permission for the Phase 2 Kings Hill development. The Supporting Statement submitted as part of TM/02/03429/OA made specific reference to the re-use of the Heath Farm oast houses and farm house complex. The Statement proposed eight residential units not exceeding the existing farm complex footprint of 1,011m².
- 6.2 An alternative planning permission was subsequently approved in 2008. That application also sought to permit access onto Wateringbury Road. Planning permission was again granted in 2009 for an amended scheme which permitted the inclusion of one additional garage. That application also removed any permitted development rights for the erection of further outbuildings.
- 6.3 The redevelopment of Heath Farm (as envisaged) sought to provide eight residential units without increasing the existing footprint of the original farm buildings. This was considered important in order to retain the layout and character of the original farm complex, and minimise any adverse impact on the wider countryside. The importance of retaining the character of the complex and minimising any adverse impact on the nature of the countryside remain the key determining factors in assessing the current application.
- 6.4 The redevelopment of Heath Farm predates policy DC1 of the MDE DPD 2010; this policy relates to the re-use of existing rural buildings although Section 3 makes specific reference to subsequent proposals relating to sites such as this where rural buildings have been converted to residential accommodation. It states that planning permission to erect ancillary buildings will not normally be granted, the underlying reason being to ensure the character of the development is not diluted or subject to incremental development that has an unacceptable suburbanising impact on the rural environment. The proposed development is therefore, in principle, contrary to this policy.
- 6.5 More generally, policy CP14 of the TMBCS 2007 seeks to restrict development in the countryside although it does allow for appropriate extensions to existing dwellings. The proposed development does not comprise an extension to the existing dwelling and is separated from the host dwelling by a considerable distance (some 45m at its nearest point) meaning that it cannot reasonably be said to be an adjunct to the dwellinghouse.
- 6.6 Policy CP24 of the TMBCS seeks to ensure that all development is well designed and respects the site and its surroundings. This aim is also reflected in paragraph 58 of the NPPF 2012 which seeks to ensure that development will respond to local character and history and reflect the identity of local surroundings.
- 6.7 The outbuildings are proposed to be sited at the end of the rear garden, a significant distance from the main group of dwellings. This siting fails to respect the design aims of the original redevelopment and leads to a dispersed

development, suburban in appearance, which increases the impact on the countryside. The farm yard re-development was designed to retain the layout of the original farm complex - the farmhouse and farm buildings being grouped together. The introduction of additional structures a considerable distance from the original cluster of buildings fails to reflect the identity of the local surroundings and is therefore contrary to paragraph 58 of the NPPF and policy CP24 of the TMBCS.

- 6.8 It should be noted that the previous planning application (which was withdrawn prior to determination) originally proposed a single outbuilding with a footprint of approximately 116sq.m and a ridge height of 5.1m (subsequently amended to propose a footprint of 98sq.m and a ridge height of 4.8m). The current application proposes two outbuildings of 35sq.m each and ridge heights of 4.2m. Although I appreciate that this represents a reduction in overall size from the earlier (withdrawn) scheme, the proposed outbuildings are still substantial in scale and of a size and design which will have a clear suburbanising impact on the countryside and the character of the Heath Farm development. This is exacerbated further by the proposed pergolas. Whilst I am aware that these are of a relatively standard design in their own right, when viewed cumulatively with the outbuildings they accentuate the detrimental impact of the proposed development. I appreciate the applicant has stated that the siting of the outbuildings and pergola have been proposed to shield the view of the adjacent caravan site. In my view, however, this is not an overriding justification for the development.
- 6.9 For these reasons, I consider that the proposed development would have a detrimental impact on the rural character of the site and its surroundings and the rural amenities of the wider countryside by virtue of the specific siting and overall size of the proposed outbuildings, combined with their detailed design and the inclusion of the associated pergola structure. The proposed development is therefore contrary to policy DC1 of the MDE DPD, policy CP24 of the TMBCS and paragraph 58 of the NPPF. I therefore recommend that planning permission be refused.

7. Recommendation:

7.1 Refuse Planning Permission for the following reason:

- 1 The proposed development, by virtue of its specific siting, overall size and detailed design, would fail to respect the site and its surroundings as it would result in an incremental suburbanising impact on the Heath Farm development to the detriment of the rural character of the site and its surroundings and the rural amenities of the wider locality. As such the proposed development is contrary to paragraph 58 of the National Planning Policy Framework 2012, Policy CP24 of the Tonbridge and Malling Core Strategy 2007 and Policy DC1 of the Managing Development and the Environment Development Plan Document 2010.
