

SOUTH WEST KENT WASTE SERVICES CONTRACT RETENDER

Item 26/44 referred from Cabinet of 7 April 2026

An update was provided on the Borough Council's procurement process for the South West Kent Waste Services Contract. The current contract for refuse, recycling and street cleansing was due to expire at the end of March 2027 and was being retendered on a partnership basis with Tunbridge Wells Borough Council.

The joint report of the Director of Street Scene, Leisure and Technical Services and the Head of Finance provided details of the tender process and an assessment of the tenders received. As previously approved by Members, the tender was for a new contract of 12 years with an option to extend by up to two years subject to mutual agreement of all parties.

The outcome of the evaluation process, including the quality and price scores of the submissions and the overall tender scores, was attached in a restricted Annex 2 due to the inclusion of exempt information relating to the financial or business affairs of any particular person, including the authority holding that information.

In light of the partnership with Tunbridge Wells Borough Council in the procurement for the future delivery of the waste services across both boroughs, due regard had been given to aligning the decision-making processes as closely as possible by both local authorities, seeking to ensure synchronised Council approvals to enable final appointment of the successful contractor.

Additionally, Members were advised that a further report would be presented for consideration of the potential options for financing of vehicles under the new contract and for other discretionary works, such as the cleansing of high speed roads.

Taking into consideration the final tender scores detailed in the restricted Annex 2, Cllr Boughton proposed, Cllr Keers seconded and Cabinet

RECOMMENDED*: That

- (1) contractor A, identified in the restricted Annex 2 to the report, be awarded the South West Kent Waste Services Contract as detailed in the report; and
- (2) a further report setting out proposals relating to the options for the financing of vehicles deployed on the Contract, costs relating to the cleansing of High Speed Roads, and costs associated with the cleansing of a number of Public Open Spaces, be presented to the next meeting of the Communities and Environment Scrutiny Select Committee for consideration.

***Recommended to Council**
